Success is a journey. Take a path that offers exciting opportunities along the way. At UNSW Sydney, we provide outstanding experiences so you can reach your full potential and build your future career.

UNSW is an internationally acclaimed teaching and research powerhouse with three modern campuses, giving you a learning experience packed with academic programs, student activities, and educational services.

Working within our top 50 university, our academics are recognised as global leaders in their fields. Our students study in world-class facilities, interact with industry leaders, and apply the latest research to real-world situations.

You will learn to challenge traditional thinking, to push boundaries, and to be innovative. We make sure our graduates have both the theory and practical experience they need to graduate and join our alumni community achieving incredible things around the globe.

We are proud to be “Australia’s Global University”, placed among the world’s best. Through our 2025 Strategy, we are deepening our research and teaching, partnering with more governments and universities, and transforming the lives of people around the world.

Choosing your university is an important decision. We hope you take the leap to join our community and discover a wealth of opportunities at UNSW.
Take a 360° tour

Experience our Sydney campuses in 360° from your computer, tablet, or phone. See how our campuses function, get insider access to study and research spaces, and hear from world-class academics.

When you start the tour, a guide will introduce you to the experience. Yellow buttons appear in the landscape as you move around. Click on a button to watch videos about our faculties and people, read about buildings and who is inside, and learn about our facilities, the university’s history, and life as a student on campus.

Get a taste of life at UNSW.

JOIN A GLOBAL ALUMNI COMMUNITY

Position yourself for international success with UNSW

Our alumni are making their mark on the world working with some of the biggest global organisations, such as Google, Penguin, Ernst & Young, Microsoft, Rio Tinto, HSBC, Slater & Gordon, NASA, UNESCO, and Oxfam.

When you graduate, you will become a member of the UNSW global alumni network of close to 300,000 graduates in 146 countries. Carry the UNSW Sydney name with you like a passport and open new doors. You’ll be invited to regular alumni events hosted by UNSW in countries such as Australia, Singapore, Hong Kong, Malaysia, Indonesia, and the US.

We transform clever ideas and research discoveries into successful innovations to benefit society, the economy, and future generations.

We conduct research across a wide range of areas. We invest considerable resources in areas where we believe can make the biggest difference, such as:

• **Solar power (photovoltaics).** We hold the world record for the conversion efficiency of a silicon solar cell, and we are home to the world’s fastest solar-powered car.

• **Clean drinking water.** We created membrane filtration technology to filter water that is now used in taps around the world.

• **The bionic eye.** We successfully trialled a bionic eye system that is a world-first in neural stimulation and clarity of vision.

• **HIV/AIDS.** Since diagnosing Australia’s first case of HIV, we have been involved in the development of every existing antiretroviral HIV drug.

• **The world’s largest computer.** Using silicon, we are in the race to build a quantum computer.

Supporting entrepreneurs

We have the biggest student startup program in Australia. The new UNSW Founders Program makes entrepreneurial confidence a part of every student’s university experience.

The program offers:

• Foundational programming, open to everyone, at the Michael Crouch Innovation Centre.

• Pre-accelerator programs, such as the Founders Start, Launch, and Grow programs for those looking to refine and test their business proposition.

• New Wave Founders, a program that offers tailored opportunities for female entrepreneurs.

• Global Founders, a program to help launch founders into foreign markets.

• FounderLab, a world-first program that offers technical development and support for non-technical founders.

• Founders 10x Accelerator, our 10-week intensive accelerator program for 10 high-impact startups.

founders.unsw.edu.au

One of the country’s largest research communities with almost 4,500 dedicated research students.

The Torch Innovation Precinct brings together industry, entrepreneurs, investors, and policy makers from around the world. These networks allow us to facilitate the transition from innovation to research and development to realisation.

12 Australian Research Council Centres of Excellence.

Founding partner of Cicada Innovations, the world’s No.1 technology incubator (International Business Innovation Association 2014).
EXPERIENCE: SYDNEY, ONE OF THE WORLD’S BEST CITIES

The business capital of Australia
Sydney is home to more global firms than any other Australian city. A gateway to Asian economies, the city attracts great minds and is known for its ideal climate, relaxed outdoor lifestyle, and friendly locals. It’s no wonder Sydney was voted the 10th-best city in the world to live and work.*

*Mercer Quality of Living Survey, 2018
Student friendly
Sydney is a diverse and cosmopolitan city. It ranked 13th-best student city in the world in the QS Best Student Cities Index 2017. The Harbour City is not just a destination but a life experience. World-class performances, spectacular events, and stunning landscapes await you in a city where there is as much to do at 7am as 11pm.

Love Sydney for less
There are endless affordable indoor and outdoor activities to enjoy in Sydney. Visit free art galleries, watch a movie at the local cinema, set off on a coastal walk, enjoy a barbecue in the park, go snorkelling or surfing at the beach, or have a cheap lunch or dinner in our neighbouring suburbs.

Surrounding areas
UNSW is in the leafy Eastern Suburbs, minutes away from Coogee Beach and Centennial Park. The surrounding suburbs of Kingsford, Randwick, and Maroubra are full of cafes and restaurants offering an impressive range of international cuisine, reflecting the area’s diversity.

Outside Sydney
Catch a train to the Blue Mountains for some fresh air, go north or south along the coast for quiet and stunning beaches, or head inland for Australian rural life. And you can always take a plane to Melbourne, the Gold Coast, New Zealand, or Bali, just like the locals.

For more information, visit:
international.unsw.edu.au/sydney-worlds-best
Our new academic calendar and extensive career development services create opportunities for you to engage with industry and improve your workplace and career skills.

**UNSW3+ calendar**
In 2019, UNSW is moving to a new academic calendar, UNSW3+. The new calendar will consist of three terms of 10 teaching weeks, plus an optional intensive summer term, which will provide a more flexible learning environment for students. UNSW3+ will allow students to create space in their degree for practical real-life work experience, enabling them to graduate with more than just a degree. The UNSW3+ calendar dates and additional information can be found at: [student.unsw.edu.au/new-calendar](student.unsw.edu.au/new-calendar)

**UNSW Careers and Employment**
Employers seek well-rounded graduates who can demonstrate relevant studies, work experience, and extra-curricular involvement. Our dedicated Careers and Employment team helps students gain practical workplace skills, obtain professional experience, and develop a plan for global career success. At any time during your degree, you can attend free seminars, access online resources, or book a one-on-one appointment with a professional careers consultant. You’ll also have access to the Careers and Employment Office up to 18 months after completing your degree. [careers.unsw.edu.au](careers.unsw.edu.au)

**Offshore networks**
UNSW maintains offices in China, India, and Indonesia as well as staff posted around the world in North America, Europe, Africa, and South East Asia. Our overseas staff have relationships with leading industry partners to promote the UNSW brand and ensure insights from companies around the world inform our programs. [international.unsw.edu.au](international.unsw.edu.au)

**Professional Development Program for International Students**
As a student, you can take advantage of a professional development program tailored to give you hands-on experience in a professional workplace. The program includes a three-day seminar covering topics such as business communication, employer expectations, and recruitment processes. You also have the opportunity to complete a 50-hour workplace experience in offices located throughout UNSW.

- Get hands-on experience and confidence in a professional setting
- Improve your job application and interview skills
- Learn about employer expectations in the Australian workplace
- Improve your business communication and business writing skills. [student.unsw.edu.au/pdp](student.unsw.edu.au/pdp)

**International Students Careers Week**
A week of seminars, panels, and online events highlights the global opportunities available to international students. You can meet with international employers, create beneficial networks, and learn valuable recruitment tips from employers and alumni. [student.unsw.edu.au/careers-week](student.unsw.edu.au/careers-week)

**Careers Expo**
Held twice a year, our Careers Expo is a chance for students to meet and discuss potential employment and internship opportunities with over 100 participating employers, including BHP Billiton, Shell, Commonwealth Bank of Australia, Deloitte, HSBC, Microsoft, IBM Australia, and many more. [student.unsw.edu.au/expos](student.unsw.edu.au/expos)

**Career-focused learning**
Taking a professional practice course will show employers that you are career focused. It will also enhance your competitiveness in the graduate recruitment process. You can take these General Education courses:

- **DIPP1112 Introduction to the Workplace**
  Develop the skills you need to be successful in the job market and to manage your ongoing career.

- **DIPP1510 Work Placement**
  Gain credit for the work experience, internship or industry-relevant placement you have secured. [student.unsw.edu.au/professional](student.unsw.edu.au/professional)

**International Student Employability Guide**
This employability guide is designed specifically for UNSW international students. It provides tips on how you can become more employable and includes the resources and programs available to you as a UNSW student. It also features profiles of successful UNSW international alumni which will guide and inspire you on how you can make the most of your time at UNSW. [student.unsw.edu.au/international-student-careers](student.unsw.edu.au/international-student-careers)
BE PART OF A SAFE
AND WELCOMING
COMMUNITY

UNSW has a village atmosphere that will make you feel at home.

Campus facilities
UNSW Sydney’s Kensington campus has everything you need, including dozens of cafes and restaurants, four ATMs, a bank, a post office, supermarket, food cooperative, pharmacy, medical centre and dentist, two libraries, a fitness and aquatic centre, and sports fields and courts.

Study areas
Work on your assignments at one of our many indoor computer labs or outdoor study areas complete with power outlets to charge your devices. Stay connected to family and friends with free Wi-Fi throughout the campus.

Clubs and societies
Join a club or society and make new friends. Choose from more than 300 student-led clubs and societies across a range of interests including food, sport, running, debating, conservation, the Exchange Society, and more.

Student association
Arc is our student association – it’s run by students for students. Find out about parties and events, or get discounts from partner organisations, free legal advice, and assistance with finding a part-time job or volunteer work.

Language and conversation skills
Improve your language skills by participating in one of our many programs or discussion groups on campus. We can even match you with a partner who shares your language, while you work on improving your English.

Religion centre
Our interfaith religion centre is for all UNSW students. Chaplains conduct services and study groups, and offer spiritual counselling. The Islamic Society has an Imam and meeting and prayer rooms are available.

Staying safe
To maintain our safe and enjoyable study environment, our security service provides a 24-hour comprehensive presence across campus. With our StaySafe@UNSW free app you can track the night bus and access safety tips, contacts, a newsfeed, and more.

international.unsw.edu.au/life-at-unsw
GET FRIENDLY AND HELPFUL SUPPORT

Our students tell us we are one of the friendliest universities in Australia with many support services you can rely on.

Student Development International
Student Development International (SDI) is the main point of contact for all international students. It’s where you’ll find answers to all your questions about your arrival, your studies, your visa, support information for your family, and more.

Arrival support
From picking you up at the airport, running new-arrival workshops, and taking you on campus tours, our dedicated International Student Welcome Centre will make sure you feel welcome, safe, and well connected, so you can settle in.

Cultural Mentors and Cultural Transition programs
New students can apply to be matched with a Cultural Mentor prior to arrival in Australia. The program introduces new international students to a senior student ‘buddy’ who will answer questions about UNSW and Sydney before you arrive. After you arrive, you can meet up with your mentor to learn about Australian culture, customs, and being a student at UNSW. Cultural Transition programs include Culture of Oz, the Language Exchange Program, discussion groups, and more.

UNSW Essentials for International Students
This online tutorial is your guide to university. A series of modules (covering study, planning, exams, etc.) is designed to help your transition to UNSW and you can access it at any time.

International Student Advisors
Our International Student Advisors are always here to help you with personalised advice and information about all aspects of your university life, your student visa, your wellbeing, and your academic performance. UNSW has a range of support and development services to assist you from the time you arrive through to your graduation.

Academic support
As a UNSW Sydney student, you will have access to free online resources, academic skills workshops, individual consultations with peer writing assistants, exam preparation tips, and more.

Peer Mentors
You can also be matched with a Peer Mentor. This is a senior student from your faculty who can give you faculty advice and tips on how to adjust to student life in your chosen field.

UNSW has the largest student housing capacity in Sydney with award-winning accommodation on and off campus. Live within walking distance of your lecture halls, meet people from around the world, and make lifelong friends. Alternatively, find your own home in the neighbouring Eastern Suburbs or by the beach.

Accommodation at UNSW

Colleges
Colleges provide a choice of full board, partly catered, and self-catered accommodation. There is also a range of gender-specific options including male only, female only, and mixed male and female accommodation. Most colleges cater for dietary requirements like halal, kosher, and vegetarian.

Apartments
Apartments offer independent-style living for undergraduates, postgraduates, couples, and families with children. There are apartments on and off campus and costs vary depending on the number of rooms and the location.

You should organise your university accommodation early as places book up quickly. Apply for UNSW accommodation at housing.unsw.edu.au

Private accommodation options

Rental property
There are many private rental properties in the suburbs surrounding UNSW. Costs vary according to the number of bedrooms, the condition, and location. When renting, you usually sign a 6- or 12-month lease and pay rent in advance plus a security deposit called a bond. You can rent a furnished or unfurnished property and generally there will be additional expenses such as electricity, gas, telephone and Wi-Fi. Costs vary but usually range from A$150 – A$300 per student per week in a shared house or apartment.

Homestay (full board and room-only)
Homestay options include full board and single room-only accommodation. Full board usually includes a furnished room, use of facilities in the private home of a family or single person, plus breakfast and dinner. Some also include bed linen, a laundry service, and weekly room cleaning. Single room-only homestays include a furnished room, and gas and electricity expenses in the rent. You will be responsible for buying your own food, cooking, cleaning, and laundry and telephone costs. Costs vary but usually range from A$180 – A$300 per student per week. Search our database of locally listed private properties at studystays.unsw.edu.au

Temporary accommodation
If you haven’t confirmed your university accommodation before you arrive, we recommend you allow three to four weeks before classes begin to look for private housing, settle in, and attend orientation sessions. Be sure to book short-term accommodation first, then look for long-term options in person. Short-term accommodation can include private hotels, motels, hostels, lodges, or furnished apartments ranging from A$45 to A$300 per day.

Private student housing assistance
Our International Student Housing Assistance team (ISHA) can help you look for temporary or private accommodation if UNSW accommodation isn’t available when you apply. The service is available at the start of each term. student.unsw.edu.au/housing-assistance

Under 18s
Arrangements must be made for students under 18 years of age. These requirements are in line with Australian Government regulations for the care and welfare of international students under 18. student.unsw.edu.au/visa18
Accommodation costs are subject to change and are indicative only.

UNSW Art & Design leads Australia in experimental art and design infused with innovation and technology. We’re setting tomorrow’s creative benchmark in today’s connected and evolving world. We inspire future leaders and equip them with the skills, creative thinking and connections to make their mark on the world.

### Career outcomes
- Advertising executives
- Animators
- Artists
- Arts managers
- Communication specialists
- Contemporary artists
- Creative arts teachers
- Creative directors
- Curators
- Designers
- Digital media designers
- Film and television producers
- Furniture designers
- Graphic designers
- Illustrators
- Industrial designers
- Interactive designers
- Jewellery designers
- Journalists
- Media specialists
- Media strategists
- Public relations specialists
- UX designers
- VR specialists

### TOP RANKING IN ART & DESIGN
UNSW Art & Design is ranked equal 31st in the world in the QS World University Rankings by Subject, 2018 and is recognised as the top creative faculty in Australia by the Australian Research Council (ARC).

### STRONG INDUSTRY CONNECTIONS
UNSW Art & Design is Australia’s largest community of art, design, and digital media practitioners, researchers, educators, and students. Our international networks are unmatched, with more than 1,000 industry partners from the creative, cultural, and business industries.

### STATE-OF-THE-ART CAMPUS
Our Art & Design campus in Paddington incorporates an array of cutting-edge studios, workshops, and facilities that are among the best in the world, as well as a network of museum-quality and student-led galleries and exhibition spaces to inspire you and for you to share your work in.
**ART THEORY**

**Bachelor of Art Theory (4803)**

**Duration:** 3 years  
**Entry:** February and September  
**Estimated first year tuition:** A$34,560  
**Units of credit (per year/total):** 48/144  
**Assumed knowledge:** None  
**Faculty:** Art & Design

The Bachelor of Art Theory champions critical inquiry and will position you for a career as a thinker, curator, producer, and innovator in the contemporary art and cultural sectors.

**Career opportunities**  
Our graduates have the hands-on skills underpinning how creative content is exhibited, distributed, interpreted, and promoted and are sought after across a range of arts, cultural, entertainment, media, and technology industries. Graduates find employment in areas including:  
- Arts and cultural management, policy making, and administration  
- Art and design criticism, communications, and journalism  
- Galleries, libraries, archive, museums

- Combine this degree with:  
  - Bachelor of Arts, Bachelor of Laws, Bachelor of Social Research & Policy  
  - Dual Award duration: 4 to 5 years.

**DESIGN**

**Bachelor of Design (4822)**

**Duration:** 3 years  
**Entry:** February and September  
**Estimated first year tuition:** A$34,560  
**Units of credit (per year/total):** 48/144  
**Assumed knowledge:** Visual Arts  
**Faculty:** Art & Design

The Bachelor of Design degree will give you the knowledge, skills, and professional attributes you need to thrive in a rapidly changing world. You will work in a future-focused, collaborative, studio-based environment integrating key design specialisations including graphics, objects, 3D visualisation, textiles, interaction, and experience design. You will build experience in established, new, and emerging technologies both digital and analogue as well as develop the skills and capacity for design thinking, social innovation, and entrepreneurship.

**Studio specialisations:**  
- 3D Visualisation  
- Crafted Objects  
- Experience Design  
- Graphic Design  
- Interaction Design  
- Textile Design

- Combine this degree with:  
  - Bachelor of Commerce, Bachelor of Media (Public Relations and Advertising)  
  - Dual Award duration: 4 years.

**FINE ARTS**

**Bachelor of Fine Arts (4821)**

**Duration:** 3 years  
**Entry:** February and September  
**Estimated first year tuition:** A$34,560  
**Units of credit (per year/total):** 48/144  
**Assumed knowledge:** Visual Arts  
**Faculty:** Art & Design

The Bachelor of Fine Arts is a studio-based degree that will develop your creative and professional skills and contemporary artistic practice. The forward-looking degree will connect you with the latest artistic ideas, processes, and technologies to help you to shape the future of contemporary art and culture.

**Studio specialisations:**  
- Drawing  
- Painting  
- Printmaking

- Combine this degree with:  
  - Bachelor of Arts, Bachelor of Commerce, Bachelor of Education (Secondary), Bachelor of Laws, Bachelor of Science, Bachelor of Advanced Science (Honours)  
  - Dual Award duration: 4 to 5 years.

**MEDIA ARTS**

**Bachelor of Media Arts (4813)**

**Duration:** 3 years  
**Entry:** February and September  
**Estimated first year tuition:** A$34,560  
**Units of credit (per year/total):** 48/144  
**Assumed knowledge:** None  
**Faculty:** Art & Design

The Bachelor of Media Arts degree is innovative, industry-aligned, and will provide you with strong foundations in contemporary creative media production including animation, moving image, sound, interactive media, and emerging media technologies.

**Studio specialisations:**  
- Animation  
- Digital Media  
- Sound  
- Moving Image  
- Interactive Media

- Combine this degree with:  
  - Bachelor of Science (Computer Science)  
  - Dual Award duration: 4 years.
UNSW Arts & Social Sciences provides a licence to explore big ideas, new perspectives, and critical social issues with Australia’s sharpest minds. Boldly creative and intellectually adventurous, we combine time-tested traditions of scholarship with progressive, fresh ways of thinking to inform social change for current and future generations and tackle age-old philosophical questions in a new light.

We are one of the most academically energetic and socially engaged faculties of our kind in the Southern Hemisphere. Our high-quality teaching and enviable international research position demonstrates the enduring value of our interdisciplinary scholarship.

TOP 100 IN THE WORLD

In the 2018 QS World University Rankings by Faculty we were 16th in the world for Social Sciences and 27th for Arts & Humanities. We are also ranked 95th in the world for Social Sciences in the Times Higher Education World University Rankings 2018.

STRONG INDUSTRY AND CULTURAL PARTNERSHIPS

UNSW is recognised as the Australian university with the strongest links to industry. Arts & Social Sciences’ links include government, agencies, professional bodies, cultural institutions, and corporate and community organisations.

We partner with the Sydney Writers’ Festival, the Walkley Foundation for Journalists, the Sydney Film Festival, and Biennale of Sydney with opportunities for you to intern, volunteer, and network with world-class professionals.

EXPERT TEACHING

You’ll be taught by industry experts and world-class scholars. In this environment, you will develop the capacity to make an informed engagement with pressing national and global issues.

**INTERNATIONAL STUDIES**

**Bachelor of International Studies** (3447)

**Duration:** 4 years

**Entry:** February

**Estimated first year tuition:** A$35,520

**Units of credit (per year/total):** 48/144

**Assumed knowledge:** None

**Faculty:** Arts & Social Sciences

This degree challenges you to examine the dynamics of global and regional change, explore key developments in international politics and economics, and evaluate why the world is changing around us. You will be equipped to understand changes to the nature of sovereignty, nationalism, conflict, humanitarian aid, and movements of people across the globe. You will study your choice of core courses, minor streams, and language courses. You will also complete a one-year overseas exchange program at an approved partner university.

**Teaching specialisations**

- Key to the International Studies
- The World in Transition
- Research Methods
- International Studies Advanced Seminar

**Minors**:

- Asian Studies
- Chinese Studies
- Development Studies
- Environmental Humanities
- European Studies
- French Studies
- German Studies
- International Business
- Japanese Studies
- Korean Studies
- Politics and International Relations
- Sociology and Anthropology
- Spanish and Latin American Studies

You will also select a language stream of four core courses in Chinese, French, German, Greek, Indonesian, Italian, Japanese, Korean, or Spanish. Remaining electives may be chosen from Arts & Social Sciences and other UNSW faculties.

**Career opportunities**

International business, government agencies (including foreign affairs), investment banks and other financial institutions, United Nations agencies, journalism and media, tourism and trade, humanitarian aid and human rights organisations, and international development agencies.

- **Combines this degree with:** Bachelor of Laws, Bachelor of Media (Screen and Sound Production), Bachelor of Communication, Bachelor of Design, Bachelor of Music (Communications and Journalism), Bachelor of Media (Public Relations and Advertising), Bachelor of Science (Screen and Sound Production), Bachelor of Science, Bachelor of Advanced Science (Honours).

**DUAL Award duration:** 5 to 6.5 years.

**MEDIA AND COMMUNICATION**

**Bachelor of Media (Communication and Journalism)** (3428)

**Duration:** 3 years

**Entry:** February and September

**Estimated first year tuition:** A$36,840

**Units of credit (per year/total):** 48/144

**Assumed knowledge:** None

**Faculty:** Arts & Social Sciences

We are ranked 46th in the world for Communication and Media Studies on QS World University Rankings by Subject, 2017.

This degree will prepare you with skills and knowledge in storytelling across all forms of journalism and communication: including news reporting, mobile media, and digital media. You will study media core courses, communication and journalism courses, and elective courses. You will learn through experience as you undertake a media internship or portfolio.

- **Career opportunities**

  - Journalism
  - Public relations and advertising
  - Corporate, organisational and public-sector communications
  - Internal communications
  - Media relations
  - Social media strategy

- **Combines this degree with:** Bachelor of International Studies, Bachelor of Business, Bachelor of Law

**DUAL Award duration:** 4 to 5 years.

**SOCIAL WORK**

**Bachelor of Social Work (Honours)** (4033)

**Duration:** 4 years

**Entry:** February

**Estimated first year tuition:** A$35,190

**Units of credit (per year/total):** 48/192

**Assumed knowledge:** None

**Faculty:** Arts & Social Sciences

Social workers have a crucial role to play in society. They help people through challenging circumstances such as homelessness, addiction, abuse, mental illness, poverty, ageing, and discrimination. Social workers seek practical solutions to reduce stress and improve quality of life. This degree includes studies in the areas of social work practice, social and behavioural sciences, contextual studies, and research. You will study core courses, electives, field placements, and an Honours stream. This degree is accredited by the Australian Association of Social Workers.

- **Career opportunities**

  - Social work in the public sector
  - Community development
  - Education, welfare, and social work agencies
  - Specialised settings
  - Research

- **DUAL Award duration:** 5.5 to 6 years.

**MUSIC**

**Bachelor of Music** (3436)

**Duration:** 3 years

**Entry:** February

**Estimated first year tuition:** A$33,840

**Units of credit (per year/total):** 48/144

**Assumed knowledge:** None

**Faculty:** Arts & Social Sciences

This degree provides you with skills and knowledge in the local and global community. You will study core courses, screen and sound courses, and elective courses, and will learn through experience as you undertake a media internship or portfolio.

Entry: February
Estimated first year tuition: A$37,920
Units of credit (per year/total): 48/192
Assumed knowledge: None
Faculty: Built Environment

We are ranked 20th in the world for Architecture by QS World University Rankings by Subject, 2018.

Behind almost every building – from modern and intimate rooms to spaces accommodating complete needs and those that are extraordinary and iconic – lies the disciplined creativity of architecture. An architectural design, buildings and their settings meet the needs of clients, the people who use the building, and the broader community. In their design practice, architects are mindful of sustainability, and cultural and economic considerations.

Career opportunities
As a graduate, you may find employment as a consulting architect in private practice, specialist architect in areas such as heritage, building science, environmental consultant, multidisciplinary design practice, government architect's office, large commercial architectural firms, architectural critics, academics, and researchers.

The Bachelor of Architectural Studies is the undergraduate pathway to the professionally accredited postgraduate Master of Architecture degree which has professional recognition from the NSW Architects Registration Board, Australian Institute of Architects, Architects Accreditation Council of Australia, and Commonwealth Associate of Architect.

Bachelor of Architectural Studies (UNSW – Tongji) (3264)
Duration: 4 years
Entry: Students commercialise the dual degree at Tongji University and the Tongji academic year commences in September.
Estimated first year tuition: A$38,120
Units of credit (per year/total): 48/192
Assumed knowledge: None
Faculty: Built Environment

UNSW Built Environment has partnered with Tongji University in Shanghai to offer an architectural education with a global focus. This unique dual degree, taught in English prepares you to practise in both China and Australia.

Career opportunities
This degree will prepare you for work in both China and Australia. As a graduate, you may find employment as a consulting architect in private practice, as a specialist architect, an architect at a multidisciplinary design practice, or an architect in a government office, or in large commercial architectural firms.

This degree is not available to students who are currently studying an undergraduate architecture degree, or PRC citizens.

The Bachelor of Architectural Studies is the undergraduate pathway to the professionally accredited postgraduate Master of Architecture degree which has professional recognition from the NSW Architects Registration Board, Australian Institute of Architects, Architects Accreditation Council of Australia, and Commonwealth Associate of Architect.

Bachelor of Interior Architecture (Honours) (3256)
Duration: 4 years
Entry: February
Estimated first year tuition: A$37,920
Units of credit (per year/total): 48/192
Assumed knowledge: None
Faculty: Built Environment

Interior architecture works at the scale of architecture, including the manipulation of structural elements such as walls, floors, and staircases. During this program, you will learn to develop creative solutions that respond to current societal and functional aesthetic challenges in the built environment – spaces that may be permanent or temporary, from the scale of rooms to the scale of cities.

Career opportunities
As a graduate, you can pursue a career as an interior architect in architecture and design practices, private consultant, specializing in residential, retail, workplace, commercial, or hospitality, corporate interior designer specializing in multi-storey residential, retail, hospitality, medical, hotel, or exhibition design, your own interior architecture or design practices, project management, construction management, construction consultant.

This degree is professionally recognised.

Bachelor of Landscape Architecture (Honours) (3381)
Duration: 4 years including a period of 30 days' work experience
Entry: February
Estimated first year tuition: A$37,920
Units of credit (per year/total): 48/192
Assumed knowledge: None
Faculty: Built Environment

Landscape architects combine knowledge of art and science to plan, design, and manage natural and built environments in Australia and internationally, which concern and celebrate ecological relationships, cultural values, and symbolic associations. You will use the campus and its local landscapes as your working lab. The program includes 90 days of work experience, giving you industry contacts and experience, and making you a highly employable graduate.

Career opportunities
As a graduate, you can pursue a career as a landscape architect, designer in private practice, designer, project manager or technical officer in local government, landscape planner in a state government agency in authority, landscape planning and management specialist, designer with a landscape construction company.

This degree is professionally recognised.

CONSTRUCTION MANAGEMENT AND PROPERTY

Bachelor of City Planning (Honours) (3362)
Duration: 4 years including 1 year of work experience
Entry: February
Estimated first year tuition: A$37,920
Units of credit (per year/total): 48/192
Assumed knowledge: None
Faculty: Built Environment

Planning the lived environment is a complex, dynamic activity. It requires a broad understanding of political, economic, cultural, environmental, and legal issues. For cities, suburbs, and regions, the Bachelor of City Planning encompasses the development, improvement, conservation, and general management of the environment. As a graduate, you will have the skills to address sustainability and climate change issues, transport and infrastructure provisions, facilitate urban renewal, or tackle social inequality and exclusion.

Career opportunities
As a graduate, you can work as a strategic planner, environmental planner, land-use planner, urban policy and research, urban consultant, development assessment planner, specialist in planning law (City Planning/defu) (law degree).

This degree is professionally recognised.

Bachelor of Construction Management and Property (3332)
Duration: 3 years + 1 year Honours option
Entry: February
Estimated first year tuition: A$37,920
Units of credit (per year/total): 48/192
Assumed knowledge: None
Faculty: Built Environment

This program provides education and training in the management of property development, construction and design work, construction site and facility operation, and a strong emphasis on management skills including human resources, organisational behaviour, and risk management. You may choose to do a generic Honours degree or specialise in one of the following areas: building construction, quantity surveying, or property development.

Career opportunities
As a graduate, you can work as a construction manager, project manager, site manager, property developer, property valuer, property and asset manager, Quantity Surveyor, Estimator, construction planner, construction consultant, specialised real estate advisor, corporate real estate advisor.

This degree is professionally recognised.

DESIGN

Bachelor of Industrial Design (3386)
Duration: 3 years + 1 year Honours option
Entry: February
Estimated first year tuition: A$37,920
Units of credit (per year/total): 48/192
Assumed knowledge: None
Faculty: Built Environment

Behind many manufactured products and services encountered at home, at work, and in the public arena is the creativity, innovation, and technical know-how of an industrial designer. Their role is to create attractive and functional products that work in the real world and fulfil a genuine market demand or societal need. Understanding materials, manufacturing technology, and user insights within economics, social, and environmental contexts in which products are produced, marketed, and used is essential. This program will give you the skills and a career-ready portfolio that will enable you to be a leader in the industry.

Career opportunities
As a graduate, you can pursue a career as a product designer within a design consultancy, a multidisciplinary design team (architectural and engineering consultancies), or the manufacturing sector (consumer and public access products – electrical, transport, scientific, medical, retail, furniture, telecommunications), digital multimedia designer, product branding marketer, packaging designer, exhibition designer, or graphic designer.

Career opportunities
As a graduate, you can work as a construction manager, project manager, site manager, property developer, property valuer, property and asset manager, Quantity Surveyor, Estimator, construction planner, construction consultant, specialised real estate advisor, corporate real estate advisor.

This degree is professionally recognised.

Bachelor of Computational Design (3268)
Duration: 3 years + 1 year Honours option
Entry: February
Estimated first year tuition: A$38,120
Units of credit (per year/total): 48/192
Assumed knowledge: None
Faculty: Built Environment

This program will empower you with a new understanding of digital technologies and their application within the built environment. You will take part in projects spanning industrial design, architecture, construction, urban design, and planning disciplines. You will learn cutting-edge computer design skills and digital technologies including 3D modelling through the use of gaming and graphics technology, digital geometry and parametric design, and responsive environments, as well as form making and fabrication using 3D printers and laser cutters.

Career opportunities
Architecture and urban design specialist, digital optimisation consultant (architecture/engineering firms), software solutions developer, design/production manager (construction firm), smart city consultant (planning offices and councils), urban data analyst (business consultancy firms), digital technology manager (architecture design firms), digital fabrication and smart manufacturing specialist, animation professional, gaming environment developer, building information model implementer (BIM).

PLEASE NOTE: UNSW Built Environment has revised the English language requirements for entry into all of its programs. Students who wish to commence their studies in 2019 or beyond will require an IELTS score of 7.0 overall with a minimum of 6.5 in each subtest. Please refer to generally for the most information.
BUSINESS SCHOOL

At UNSW Business School we are committed to creating the next generation of business thinkers, leaders, and entrepreneurs who will set the agenda on the global business stage. Our aim is to provide every graduate with the skills, networks, knowledge, and know-how to stand out in the crowd and excel in today’s business world.

We are a high-impact, academically rigorous business school that enhances practice through innovative research. Our engagement, research, and programs in the Asia-Pacific provide limitless opportunities across the world’s fastest growing economic market.

So, join us at UNSW Business School – Where Great Minds Do Business.

WHERE GREAT MINDS DO BUSINESS

Career outcomes

Accountants
Actuarial analysts
Auditors
Business analyst

TOP RANKINGS FOR BUSINESS

We are 10th in the world for Accounting and Finance, 22nd for Business and Management Studies, 31st for Economic and Econometrics, and 41st for Computer Science and Information Systems.

QS World University Rankings by Subject 2018

Reputation and Rankings, visit: business.unsw.edu.au/reputation

GLOBALLY RECOGNISED DEGREES

We are accredited by AACSB and EQUIS, placing us as a world-leading business school that delivers exceptional and highly regarded business degrees.

Our AGSM MBA Program is ranked in the top 100 globally.

CONNECTIONS MAKE A DIFFERENCE

Our strong industry links bring you into direct contact with prominent representatives of leading companies. You’ll hear them speak, network with them, and learn from their real-world experiences.
ARTICULAR STUDIES

Bachelor of Actuarial Studies (3586)

Duration: 3 years
Entry: February and September
Estimated first year tuition: A$41,280
Units of credit (per year): 48/144
Assumed knowledge: Mathematics
Faculty: Business School

The Bachelor of Actuarial Studies is a challenging but rewarding degree that provides you with the technical skills to become an actuary. You'll learn how to apply statistical and financial analysis to assess and minimize risks within the life and health insurance, superannuation, and financial services industry. The degree is accredited by the Actuaries Institute in Australia for meeting its Part I requirements.

Other majors:

Career opportunities:
There is strong demand for graduates in actuarial studies, especially in the financial services industry, insurance and superannuation industry.

As a graduate, you can work as an actuarial analyst, consultant, asset management trainee, credit analyst, risk management trainee, insurance analyst, risk assessment officer, statistical research analyst, supervision advisor or wealth management analyst.

This degree is professionally recognised.

4- Combine this degree with:
Bachelor of Commerce, Bachelor of Economics, Bachelor of Laws, Bachelor of Science, Bachelor of Advanced Mathematics (Honours)

Dual Award duration: 4 to 5 years.

ECONOMICS

Bachelor of Economics (3543)

Duration: 3 years
Entry: February and September
Estimated first year tuition: A$41,280
Units of credit (per year): 48/144
Assumed knowledge: Mathematics
Faculty: Business School

We are ranked 30th in the world for Economics and Econometrics.
QS World University Rankings by Subject, 2018

The Bachelor of Economics is a specialist degree that helps you acquire in-depth knowledge in economic theory and econometric methods alongside strong analytical and statistical skills. The skills and knowledge have diverse applications in business and finance, opening up a multitude of career choices in both the public and private sectors. You can complement your economics major with another economics major or an approved major from the Bachelor of Commerce.

Other majors:
Economics

With the option of adding a minor in a Business School discipline or in approved disciplines from the Faculty of Arts or the Faculty of Science.

4- Combine this degree with:
Bachelor of Arts, Bachelor of Education, (Secondary), Bachelor of Laws, Bachelor of Science, Bachelor of Advanced Science (Honours), Bachelor of Advanced Mathematics (Honours)

Dual Award duration: 4 to 5.5 years.

INFORMATION SYSTEMS

Bachelor of Information Systems (5979)

Duration: 3 years
Entry: February and September
Estimated first year tuition: A$41,280
Units of credit (per year): 48/144
Assumed knowledge: Mathematics
Faculty: Business School

Digital technology has already transformed the way we buy, interact, share, and search for information. Organisations today rely on IT to effectively run their businesses and to drive the innovations that will safeguard their future in a competitive global environment. The Bachelor of Information Systems will equip you with necessary information systems expertise and business skills to manage and support businesses in the modern digital world.

Other majors:
Business discipline streams refer to Bachelor of Commerce, International Studies discipline streams:

- Asian Studies
- Chinese Studies
- Development Studies
- European Studies
- French Studies
- German Studies
- History
- Japanese Studies
- Korean Studies
- Politics and International Relations
- Spanish and Latin American Studies

Career opportunities:
As a graduate, you can find employment in a diverse range of professions depending on your commerce major. You can work in government agencies, including foreign affairs, investment banks, and other financial institutions with international links as well as non-government organisations.

This degree is professionally recognised.

4- Combine this degree with:
Bachelor of Commerce

Dual Award duration: 4 years.

ENGINEERING

Bachelor of Engineering (Honours) (3707)

Duration: 4 years
Entry: February and September
Estimated first year tuition: $45,420
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics and Physics

Faculty: Engineering

The Bachelor of Engineering (Honours) is designed to equip you for a career as a professional engineer. You will develop a solid background in the sciences, mathematics, natural sciences, and computing that will prepare you for learning knowledge and skills in an engineering discipline/specialisation. You will get the chance to apply yourself to engineering design and project, professional engineering practice, engineering and technical management, and conduct research towards your thesis project.

Flexible First Year stream

The Bachelor of Engineering (Honours) program includes a Flexible First Year stream. This stream is designed for those students who wish to study engineering but would like to delay their choice of which branch of engineering to study until the end of Year 1. The first year of engineering study has a common core of courses, plus a wide choice of electives which allows you to study a number of areas that appeal to you without making a formal commitment until the end of your first year. This is ideal for students who know they want to be an engineer but are unsure which direction to take.

Aerospace engineering

Aerospace engineering is concerned with the science and practice of air and space flight, the design, development, testing, and production of aircraft, and in aerospace research.

Bioinformatics Engineering

Bioinformatics is an emerging discipline at the convergence of computing and life sciences, aimed at the development of technologies for storing, extracting, organizing, analyzing, interpreting, and using the ‘torrents’ of genetic information being generated. The bioinformatics program covers the foundation disciplines of bioinformatics, including biology (biochemistry, molecular biology, and genetics), computing (algorithms, databases, programming), and mathematics and statistics.

Chemical Engineering

This degree bridges the study of the chemical and physical sciences with engineering. You will learn how to design and develop chemical processes and equipment, optimize and control industrial operations, plan plant operations, factor management strategies, work with transporters, look into environmental effects and pollution control, and more. Management, critical analysis, and economics are key components of your training.

Career opportunities

Chemical engineers pursue careers in the design and development of chemical processes, and in particular, chemical process engineering. This includes the design, operation, and maintenance of chemical plants, as well as the development and testing of new processes and equipment.
Mechanical and Manufacturing Engineering

This degree applies scientific and engineering knowledge to the development, manufacture, and distribution of all types of products, as well as the machines that create them. It involves a set of electives focused on industrial technology and automation, finance and decision-making, process design, computer aided design, and manufacturing.

Mechatronic Engineering

This degree embraces the interdisciplinary area of mechanical engineering control, engineering, and software development, especially for controlling sophisticated smart machines. Among the skills acquired are the development of autonomous systems, software for advanced vehicles, as well as a thorough knowledge of industrial automation.

Manufacturing

In this degree, students can choose to study the design and manufacture of equipment and systems such as self-operating robots, including sophisticated smart machines. Among the skills acquired are the development of autonomous systems, software for advanced vehicles, as well as a thorough knowledge of industrial automation.

MINING ENGINEERING

Mining engineering studies the safe, economic, and environmentally responsible recovery, processing, marketing, and financial management of mineral resources. The degree provides a comprehensive understanding of how complex mining systems work together to service the global need for minerals. It gives students a solid foundation in fundamental engineering principles and essential elements of mining, like geomechanics, ventilation, mining planning, and mining processing.

Petroleum Engineering

Petroleum engineers apply chemistry, physics, geology, and economics to the discovery, development, and production of energy and related materials. It also involves the study of environmental impacts. Petroleum engineers apply knowledge of chemistry, microbiology, biochemistry, chemical engineering, and economics to the discovery, development, and production of energy and related materials. It also involves the study of environmental impacts.

Photovoltaics and Solar Energy

UNSW is a world leader in the field of photovoltaic (PV) technology development. This includes the production of clean energy from the sun, using solar panels. The program includes courses in technology development, manufacturing, and installation.

Renewable Energy Engineering

This degree explores the best ways to make use of renewable energy technologies, including solar thermal, photovoltaic, wind, tide, geothermal, and bioenergy. About half of what you study in this degree is common with Photovoltaics and Solar Energy, but it looks beyond the sun as a source of energy, encompassing a wider range of technologies and their uses. It also addresses the areas of solar architecture and the design of energy-efficient buildings and appliances. You'll develop an appreciation for beauty and sustainability in the built environment.

Software Engineering

Software engineering includes the design and implementation of software systems to meet specific needs and solve problems. It involves the design of software systems for a multitude of purposes and allows you to learn about the processes and methods, and tools for the design and development of high-quality reliable software systems. This includes the study and application of software specification, design, implementation, testing, and documentation. The degree includes a series of workshops that enable students to work in teams and gain hands-on experience.

Career opportunities

Surveying supports all construction activity and architecture engineering in urban and rural environments, as well as mapping and monitoring natural and artificial environments. Surveying is a perfect job for people who enjoy travelling and meeting new people. A career in surveying can lead to involvement in a variety of projects, such as GIS, laser scanning, mapping, and surveying. It allows you to work in a diverse range of environments, from remote bushland to busy city centres.

Telecommunications

Telecommunications explores how information is transferred from one point to another, using technologies that have revolutionised the internet. You can learn about the design, development, and maintenance of telecommunications systems, including wireless and mobile networks. The field of telecommunications provides a wide range of career opportunities, from working as a network engineer to managing a telecommunications company.

Bachelor of Engineering (Honours) / Master of Biomedical Engineering (Electrical Engineering)

The School of Electrical and Telecommunications offers a five-year integrated degree program (210 LID) leading to a Bachelor of Engineering (Honours) and Master of Engineering (88 ME) in Electrical Engineering. The program includes a compulsory 24 UOC minor in a discipline outside the area of electrical engineering and telecommunications. Flexibility and choice are maintained throughout the entire structure by providing many elective courses.

Biomedical engineers are a vital part of the healthcare system, applying engineering principles to diagnose, treat, and prevent diseases. They work in hospitals, research institutions, and other healthcare facilities, developing and improving medical technologies. They work on everything from medical devices to surgical instruments, and from prosthetics to implants.

Bachelor of Engineering (Honours) / Master of Biomedical Engineering (Computer Engineering)

The Bachelor of Engineering (Honours)/Master of Biomedical Engineering dual degree is offered in the following engineering disciplines: • Biomedical Engineering

Biomedical engineers apply engineering analysis and techniques to problems in medicine and life sciences. They work on the design and development of medical devices, including prosthetics, orthotics, and diagnostics.

Bachelor of Engineering (Honours) / Master of Biomedical Engineering (Food Science and Technology)

The Bachelor of Engineering (Honours)/Master of Biomedical Engineering dual degree is offered in the following engineering disciplines: • Food Science and Technology

Food scientists work on the development and improvement of food products, from the time they are harvested to the time they reach the consumer. They work in a wide range of industries, including agriculture, food manufacturing, and government.

Bachelor of Science in Food Science (Honours)

You will learn more about the physiological and biochemical mechanisms underlying metabolism, health, and disease, including nutrition, food safety, and food additives. This degree prepares you for careers in the food industry, including food processing, food technology, and food quality assurance, among others.

International Student Guide 2019 – UNDERGRADUATE
LAW

UNSW Law is a top ranking law school and a global leader in legal education and research. Our comprehensive and innovative selection of programs put traditional areas of law alongside new and emerging topics, allowing our students to tailor a program to their own professional requirements.

The pre-eminence of our teaching, research excellence and the outstanding support we provide students are the characteristics that continue to attract the most talented teachers, researchers and students from Australia and internationally.

MEDICINE

UNSW Medicine is a pioneer of medical research and innovation, committed to turning discoveries into cures. Our leading educators, researchers, and clinicians are developing cures, therapies, and treatment strategies and turning high-achieving students into caring health professionals with globally recognised qualifications.

BUILDING THE FUTURE OF HEALTH CARE

Career outcomes
Bioinformaticians
Biotechnology specialists
Clinical research associates
Clinical trial managers
Geneticists
Health economics
Health promotion
Infectious disease control
Laboratory technicians
Medicinal chemists
Microbiologists
Nanotechnologists
Pharmaceutical developers
Pharmaceutical medical affairs managers
Pharmacologists
Public health policy
Research scientists

TOP 100 MEDICAL SCHOOL
We are one of the world’s top 100 medical schools
QS World University Rankings by Subject, 2018

WORLD-CLASS BIOMEDICAL RESEARCH PRECINCT
The refurbished Wallace Wurth building, together with the Lowy Cancer Research Centre and Biological Sciences Building, form a world-class biomedical research precinct at UNSW.

WORLD LEADER IN MEDICAL RESEARCH
We are a world leader in medical research, particularly in the fields of cancer, neuroscience, mental health, addiction, infectious disease and immunity.
The six-year integrated Medicine program leads to the awards of Bachelor of Medical Studies (BMed) and Doctor of Medicine (MD) (does NOT apply to Medical Science program).

Entry:
- ISAT tests are held from March until November. ISAT test result must be available before 30 November at the latest, however, earlier application is strongly recommended.
- Phone interviews will be conducted by the UAC Admissions Centre (www.uac.edu.au).

Mathematics and Chemistry are assumed knowledge for Medicine.

Assumed knowledge:
- Science
- English
- Mathematics
- Chemistry
- Physics
- Biology

Estimated first year tuition:
- Bachelor of Medical Studies (BMed): A$44,190
- Doctor of Medicine (MD): A$44,190

Faculty: Medicine

Step 1
- University Application Form – apply through Universities Admissions Centre (www.uac.edu.au)
  - Closing Date: 30 Nov
- All other applicants – apply through UNSW Admissions
  - Closing Date: 30 Nov

Step 2
- Medical Student Admission Test – apply and sit ISAT
  - Closing Date: 30 Nov

Step 3
- Medicine Application Form – complete at school/college
  - Closing Date: 30 Nov

Step 4
- Offer of place – one offer will be made. A candidate will receive a letter of offer and must notify UNSW of their intention to accept or decline the offer within 21 days of the date of the offer.

Step 5
- Personal interview

You can choose from a range of other available clinical modules to complete Phase 3 requirements.

You may be attached to multiple sites.

You can combine both Bachelor of Arts and Bachelor of Medicine in 2 years with a clinical focus, and includes relevant sciences in relation to the human life cycle; social, ethical and legal issues related to health care; and early experience in clinical or other health-related environments. During this phase, you will undertake a variety of learning activities involving students from different stages of the program working collaboratively in small groups.

Phase 2 (Year 3) teaching includes increased clinical content with an emphasis on correlation between prior and current learning.

The BMed includes Phase 1 and Phase 2.

The MD includes the independent learning project (ILP) Year 4, followed by a clinical transition Year 5.

Research leading to the award of the BSc (Med) Honours.

Duration: 4 years

Entry: February

Estimated first year tuition: A$44,190

Units of credit (per year/total): 48/192

Assumed knowledge: English

Faculty: Medicine

Doctor of Medicine (MD)

Professional recognition

After completing formal program requirements for the award of the BMed MD degrees, you will be provisionally registered by the Medical Board of Australia and is to work for at least one year in selected hospitals before obtaining final registration as a medical practitioner. Graduates are not guaranteed an internship and should check with state health departments to confirm internship availability. Although the UNSW Medicine degree is recognised internationally, many countries require foreign graduates to sit a licensing examination to ensure the doctor understands local health issues and healthcare systems prior to practicing.

Career opportunities

Medical practitioners in hospitals and private practices. Further study and experience enables graduates to specialise in an area of medicine, such as general practice, cardiology, haematology, orthopaedics, general surgery, and paediatrics.

Completion of a one-year program of supervised professional practice.

The BMed includes Phase 1 and Phase 2.

The MD includes the independent learning project (ILP Year 4), followed by a clinical transition Year 5.

Areas of study in the fully online course include basic medical sciences, epidemiology and biostatistics, health promotion, environmental health, law and ethics, health programs, health systems, and health economics.

Analysis of your results is available from April of the following year following graduation.

The BMed includes Phase 1 and Phase 2.

The MD includes the independent learning project (ILP Year 4), followed by a clinical transition Year 5.

LEARN, EXPLORE, DISCOVER

TOP 50 IN THE WORLD
Your fellow students will be bright and inquisitive high achievers attracted by the high ranking of our scientific research schools. Our school rankings include 20th for Psychology and 38th for Materials Science in the QS World Rankings 2018.

WORLD-CLASS FACILITIES
The state-of-the-art Materials Science Building, the soon-to-be finished Biological Sciences Building, and the $100 million Torch Innovation Precinct at UNSW are all part of our commitment to being a world-class research and teaching hub with strong connections to industry.

RESEARCH AND TEACHING EXCELLENCE
We offer excellence and innovation in teaching and our staff, who are award-winning research leaders in their respective fields, will help you achieve your goals. Our award-winning academics include Professor Emma Johnston, Dean of Science, 2018 Australian of the Year Professor Michelle Simmons, and Professor Veena Sahajwalla.

Career outcomes

UNSW Science is where the brightest minds converge to learn, explore and discover. Our welcoming and vibrant community prepares you for real-world challenges and future leadership opportunities. We are well connected to the changing world of business and, together with our high-profile industry partners, we will inspire you to achieve your goals and enjoy a fulfilling career.

INTERNATIONAL STUDENT GUIDE 2019 – UNDERGRADUATE
AVIATION

Bachelor of Aviation (Flying) (3980)

Duration: 3 years
Entry: February and September
Estimated first year tuition: $43,920

The Flying stream of the Aviation degree educates and trains pilots to the highest commercial standards. In this degree you’ll learn the core scientific principles behind aviation and management for large regional or major commercial airlines. You’ll become a highly skilled and safe pilot, with an astute and practical view of all aspects of the flying industry. On completion of the degree, you will have attained, at a minimum, a Commercial Pilot Licence (CPL) with Instrument Rating – Multi Engine Aerial and an Air Transport Pilot Licence (ATPL) with advanced options including Instructor Rating, Multi-Crew Coordinated Course, or a research project. You will need to pay for the flight training costs portion of this degree.

Important information: Students will need to obtain a Class 1 Civil Aviation Authority (CASA) medical examination before flying training commences in second year.

Career opportunities: Flights for regional or major commercial airlines, training centres, charter flights or aerial surveying.

This degree is professionally recognised.

Bachelor of Aviation (Management) (3981)

Duration: 3 years
Entry: February and September
Estimated first year tuition: $43,920

The Bachelor of Aviation (Management) shares a common academic core with the Bachelor of Aviation (Flying) plus a wide range of aviation management courses. The program is designed for those with aviation industry experience or licences who desire to further their qualifications to a tertiary level, or those who seek a new career in aviation in the broad context of flight operations rather than on the flight deck. It is professionally orientated, truly interdisciplinary, incorporating the humanities, social sciences, and mathematics. You will be equipped to enter a wide range of interesting and rewarding careers, both in and beyond the life sciences of the flying industry.

BIOTECHNOLOGY

Bachelor of Biotechnology (Honours) (3053)

Duration: 4 years
Entry: February and September
Estimated first year tuition: $43,920

Biotechnology is used for the production of pharmaceuticals, food, and industrial chemicals, in the development of improved crops and livestock farming, for environmental cleanup, and in forensics. Modern biotechnology makes practical use of the most recent scientific advances. Our faculty is working with many of the world’s medical, environmental, and agricultural, and manufacturing problems in the 21st century. You will have the skills and knowledge necessary to work or carry out research as an environmental scientist. You will consider the scientific aspects of the environment within the general context of the policy and legal framework of environmental regulations, as well as economic and social dimensions of environmental policy and management.

Career opportunities: Research or development roles with medical, biological, and pharmaceutical research organisations.

Related degrees: Bachelor of Science and Bachelor of Advanced Science (Honours) - page 69

MATERIALS SCIENCE

Bachelor of Materials Science and Engineering (3131)

Duration: 4 years
Entry: February and September
Estimated first year tuition: $43,920

Materials Science degree is for you. The Bachelor of Engineering (Honours) in Materials Science and Engineering offers unlimited possibilities for innovation and development. As a materials engineer you could be involved in developing environmentally-friendly and economically viable materials, metals, advanced surface coatings, biomaterials and plastics.

Career opportunities: Research in pharmaceutical, professional health, medical laboratory science, pathology and forensic science, pharmaceutical, and related industries.

Related degrees: Bachelor of Science - page 69 Bachelor of Advanced Science (Honours) - page 70

MEDICAL SCIENCE

Bachelor of Medical Science (3931)

Duration: 3 years
Entry: February	
Estimated first year tuition: $43,920

Career opportunities: Research in pharmaceutical, professional health, medical laboratory science, pathology and forensic science, pharmaceutical, and related industries.

Related degrees: Bachelor of Science - page 69 Bachelor of Advanced Science (Honours) - page 70

MEDICINAL CHEMISTRY

Bachelor of Medicinal Chemistry (Honours) (3999)

Duration: 3 years
Entry: February	
Estimated first year tuition: $43,920

Career opportunities: Research in pharmaceutical, professional health, medical laboratory science, pathology and forensic science, pharmaceutical, and related industries.

Related degrees: Bachelor of Science - page 69 Bachelor of Advanced Science (Honours) - page 70

This degree will provide you with the skills and knowledge necessary to work or carry out research as an environmental scientist. You will consider the scientific aspects of the environment within the general context of the policy and legal framework of environmental regulations, as well as economic and social dimensions of environmental policy and management.

Career opportunities: Government departments and research organisations conducting environmental research, determining environmental impacts, developing and implementing management plans, restoring ecosystems, as well as environmental education and communication. Private industry as environmental consultants in the resource and infrastructure sectors.

Combining this degree with: Bachelor of Arts (4.5 years)

Career opportunities: Advanced degrees in health sciences, including medicine, dentistry, and veterinary science, as well as public health. Opportunities in government, non-government, and private sectors in environmental, sustainability, and resource management.

Combining this degree with: Bachelor of Law (5.5 years)

Career opportunities: Advanced degrees in health sciences, including medicine, dentistry, and veterinary science, as well as public health. Opportunities in government, non-government, and private sectors in environmental, sustainability, and resource management.
OPTOMETRY AND VISION SCIENCE
Bachelor of Vision Science (3181)
Duration: 3 years
Entry: February
Estimated first year tuition: A$43,920
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics, Chemistry, Physics, and English (Advanced)
Faculty: Science

Vision science is the study of the sensory processes that underlie vision, and the development and use of vision-related technologies. The Bachelor of Vision Science allows you to combine your interest in psychology with other science disciplines.

Career opportunities

The Bachelor of Vision Science (Honours) is in a wide range of optics, vision science, and optometry research laboratories, developing vision science programmes, teaching and research design, methods, and experimentation.

Students who complete this degree may be eligible to apply to the Master of Clinical Optometry degree.

Bachelor of Vision Science / Master of Clinical Optometry (3182)
Duration: 4 years
Entry: February
Estimated first year tuition: A$43,920
Units of credit (per year/total): 48/110
Assumed knowledge: Mathematics, Biology, Chemistry (Advanced), Physics are recommended
Faculty: Science

Graduates of this program will be able to register as an optometrist in Australia. Optometry combines the theoretical discipline of vision science with the clinical art of primary eye care. Vision science includes the optics of lenses and instruments, the physiology of the eye, the psychophysics of vision, and the neuroscience of the brain. Optometry includes the diagnosis and management of ocular disease, the dispensing of spectacles and contact lenses, the management of people with special needs (children, low vision), sports vision, and vision in the workplace.

Career opportunities

Optometrist. May focus on clinical practice, paediatric optometry, contact lenses, public health, sports vision, low vision rehabilitation, or behavioural optometry.

PSYCHOLOGY
Bachelor of Psychology (Honours) (3632)
Duration: 4 years
Entry: February
Estimated first year tuition: A$43,920
Units of credit (per year/total): 48/110
Assumed knowledge: Mathematics, Biology, Chemistry (Advanced), Physics are recommended
Faculty: Science

Our prestigious psychology degree is the very best preparation for those wanting to become a registered psychologist. The Bachelor of Psychology is your chance to study the human mind, its development, how it operates in the world, and more – the School of Psychology flagship degree, attracting the most elite applicants. Psychology is the scientific study of human behaviour. Your first year focuses on introductory psychology courses, with plenty of space for free elective courses from Science and across the university. In your second year, you will focus more on psychology science and courses in social and developmental psychology, perception and cognition, learning and physiological psychology, and assessment, personality, and psychopathology. In your third year, you take advanced courses on earlier topics combined with courses on organisational contexts and forensic issues.

Career opportunities

Work in a wide variety of contexts, including clinical, legal, organisational, educational and research settings in both the private and public sectors. Psychologists are employed across several industries including health care and social assistance, public administration and safety, education and training, and administrative and support services.

Professional recognition

Become a member of the Australian Psychological Society, and for registration as a psychologist in New South Wales (NSW), you may first complete an approved four-year degree in psychology followed by an accredited postgraduate course in psychology such as one of the Master of Psychology degrees (Clinical, Forensic) offered at UNSW. An alternative to postgraduate study is a two years of supervised experience in professional practice.

Combine this degree with:

Bachelor of Laws (6 years)

Bachelor of Psychological Science (3435)
Duration: 3 years
Entry: February and September
Estimated first year tuition: A$43,920
Units of credit (per year/total): 48/114
Assumed knowledge: Mathematics, English (Advanced), Biology, Chemistry, and Physics is recommended
Faculty: Science

Combine your love of psychology with a second area of study from Science, Business or Arts. The Bachelor of Psychological Science allows you to complete an accredited psychology degree in three years, or if you're interested in becoming a professional psychologist, you can complete a four-year Honours. The Bachelor of Psychological Science degree allows you to combine your interest in psychology with other interest areas across the university. If you're commercially minded, you might choose to combine this degree with a major in human resources, marketing, or management. Alternatively, you might choose to combine psychology with areas in the arts and social sciences such as philosophy, criminology, or linguistics. Or, if you prefer a career in healthcare or biomedical research, you could combine your degree with vision science or neuroscience.

As with the Bachelor of Psychology (Honours), if pursuing a career as a professional psychologist, you can choose to complete an additional fourth-year Honours (subject to satisfying the minimum entry criteria), pivoting your way towards professional registration. Your Honours year will prepare you for the Master of Psychology. The Master of the degree allows you to specialise in your chosen area of psychology clinical or forensic, and allow you to practice as a professional psychologist.

Career opportunities

Work in clinical, legal, organisational, educational, and research settings, in both the private and public sectors. Also works across industries including health care and social assistance, public administration and safety, education and training, and administrative and support services.

Professional recognition

To become a member of the Australian Psychological Society and for registration as a psychologist in New South Wales (NSW), you may first complete an approved four-year degree in psychology followed by an accredited postgraduate course in psychology such as one of the Master of Psychology degrees (Clinical, Forensic) offered at UNSW.

Combine this degree with:

Bachelor of Laws (5 years)

Bachelor of Psychological Science (Honours) (4518)
Duration: 1 year
Entry: February
Estimated first year tuition: A$43,920
Units of credit (per year/total): 48/144
Assumed knowledge: See Admissions requirements
Faculty: Science

The Psychological Science degree allows you to combine your interest in psychology with other science disciplines. The Psychological Science degree allows you to combine your interest in psychology with other science disciplines.

The faculty of psychology and education offers a range of undergraduate and postgraduate programs in psychology, which are designed to meet the needs of students with varying backgrounds and career goals. The Bachelor of Psychological Science degree provides a solid foundation in psychology, covering areas such as cognitive, social, and developmental psychology, as well as research methods. Students have the opportunity to specialise in areas of interest, such as clinical psychology, industrial and organisational psychology, and forensic psychology. The Bachelor of Psychological Science degree also offers a pathway to higher degrees, such as the Master of Psychology, which prepares students for careers in research, academia, or clinical practice.

Students interested in a separate Honours year may be able to apply to the Bachelor of Psychological Science (Honours) degree. This program provides an opportunity for students to undertake a substantial research project under the supervision of a faculty member, and to develop advanced research and analytical skills. Students have the opportunity to pursue a research specialisation in areas such as cognitive psychology, social psychology, and clinical psychology. The Bachelor of Psychological Science (Honours) degree also prepares students for careers in research or for admission to professional schools of psychology.

The Bachelor of Psychological Science degree is one of the most flexible science degrees offered at UNSW. It is based on a solid foundation of core science areas in vision science, and students can choose from 25 majors after the first year. The Bachelor of Science is structured so that you can apply to transfer between the program and other UNSW Science programs, including professional and advanced level degrees. If you achieve excellent grades, you will be invited to complete an Honours year.

Career opportunities

Graduates will have broad and coherent knowledge of data science through the core study program, comprehensive knowledge of statistics, computer science, and economics subjects. They will also have specialist knowledge in one of the areas through the completion of a major. This degree will produce graduates who are able to prepare, process, interpret, and present data using appropriate qualitative and quantitative techniques.

Students interested in a separate Honours year may be eligible for admission into one of the Science, Economics, or Computer Science and Engineering Honours programs.

Career opportunities

Careers include data scientist, data engineer, data analyst, statistician, business analyst, and data manager.

SCIENCE
Bachelor of Science (3970)
Duration: 3 years
Entry: February and September
Estimated first year tuition: A$43,920
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics and Chemistry plus one or more of Biology, Earth & Environmental Science, Physics or Mathematics Extension 1 (depending on chosen area of study)
Faculty: Science

The Bachelor of Science is one of the most flexible science degrees at UNSW. It is based on a solid foundation of core areas in science, and students can choose from 25 majors after the first year. The Bachelor of Science is structured so that you can apply to transfer between the program and other UNSW Science programs, including professional and advanced level degrees. If you achieve excellent grades, you will be invited to complete an Honours year.

Career opportunities

Work in a variety of fields in science and technology-based industries, government, and the private sector in management, research and communication. Recent graduates work in areas as diverse as pharmaceutical and medical research, occupational health and safety, environmental research and industry management, manufacture of new products, forensic science, patent law, cognitive science, oceanography, food manufacture, science teaching, science journalism, meteorology, optics, and application for mathematics and statistics in the finance industry.

Combine this degree with:

Bachelor of Actuarial Studies, Bachelor of Arts, Bachelor of Commerce, Bachelor of Economics, Bachelor of Education (Secondary), Bachelor of Engineer (Honours), Bachelor of Fine Arts, Bachelor of Laws, Bachelor of Music, Bachelor of Optometry (Honours), Bachelor of Science & Business, Bachelor of Science (Biological Science), Bachelor of Social and Policy Research

Dual Award duration: 4 to 5 years.

Bachelor of Data Science and Decisions (3659)
Duration: 3 years
Entry: February and September
Estimated first year tuition: A$43,920
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics Extension 1
Faculty: Science

Career opportunities

Careers include data scientist, data engineer, data analyst, statistician, business analyst, and data manager.

Graduates will have broad and coherent knowledge of data science through the core study program, comprehensive knowledge of statistics, computer science, and economics subjects. They will also have specialist knowledge in one of the areas through the completion of a major. This degree will produce graduates who are able to prepare, process, interpret, and present data using appropriate qualitative and quantitative techniques.

Students interested in a separate Honours year may be eligible for admission into one of the Science, Economics, or Computer Science and Engineering Honours programs.
Bachelor of Advanced Mathematics (Honours) (3966)
Duration: 4 years
Entry: February and September
Estimated first year tuition: $A43,920
Units of credit (per year/total): 48/192
Assumed knowledge: Mathematics Extension 1
Faculty: Science
The Bachelor of Advanced Mathematics lets you explore your passion for mathematics, while still allowing the flexibility to study courses from across the university. This is a four-year degree which includes an Honours year. The Honours year integrates advanced level coursework with a research project that is both challenging and rewarding.

Career opportunities
Opportunities in banking, insurance and investment, environmental modelling, oceanography, meteorology, computing, information technology, government, education, and research.

Combine this degree with:
Bachelor of Actuarial Studies, Bachelor of Arts, Bachelor of Commerce, Bachelor of Economics, Bachelor of Engineering (Honours), Bachelor of Laws, Bachelor of Science (Computer Science)
Dual Award duration: 4 to 5 years.

Bachelor of Advanced Science (Honours) (3962)
Duration: 4 years
Entry: February and September
Estimated first year tuition: $A43,920
Units of credit (per year/total): 48/192
Assumed knowledge: Mathematics and Chemistry plus one or more of Biology, Earth and Environmental Science, Physics or Mathematics Extension 1 (depending on chosen area of study)
Faculty: Science
The Bachelor of Advanced Science (Honours) degree students have access to advanced level courses and includes an Honours year. Students will study foundation courses such as biology, chemistry, physics, and mathematics, choose a major (or two), and really explore what inspires them most. Students will also be given the option to choose free electives from other areas of the university such as Arts and Social Sciences, Built Environment, Business, Engineering, or Law.

Career opportunities
Employment with research institutes, startups, universities, or industry in Australia or overseas, working in technology, management, analysis in business or finance, psychology, medical research and development, environmental protection, and forensic science.

Combine this degree with:
Bachelor of Arts, Bachelor of Commerce, Bachelor of Economics, Bachelor of Engineering (Honours), Bachelor of Fine Arts, Bachelor of Laws, Bachelor of Music, Bachelor of Science (Computer Science), Bachelor of Social Research and Policy
Dual Award duration: 5 to 6 years.

Bachelor of Science (Honours) (4900)
Duration: 1 year
Entry: February and September
Estimated first year tuition: $A43,920
Units of credit (per year/total): 48/144
Assumed knowledge: See entry requirements
Faculty: Science
Honours connects undergraduate study with supervised independent research by consolidating and extending work completed in the undergraduate program and providing an academic foundation for students continuing on to a Master’s by research or a PhD.

Career opportunities
For those interested in furthering their career by obtaining a research degree, Honours graduates in Science may proceed to a Doctor of Philosophy degree by research, which can lead to fulfilling careers in teaching and scientific leadership.

Bachelor of Science (International) (3987)
Duration: 4 years
Entry: February and September
Estimated first year tuition: $A43,920
Units of credit (per year/total): 48/192
Assumed knowledge: Mathematics and Chemistry plus one or more of Biology, Earth and Environmental Science, Physics, or Mathematics Extension 1 (depending on chosen area of study)
Faculty: Science
The Science (International) program is designed for students wishing to obtain a highly regarded science award coupled with emphasis on cross-cultural skills, knowledge and understanding. The program provides the knowledge and skills essential for understanding and working in the rapidly changing global environment. It will provide a wide range of career opportunities in global scientific organisations and companies, international government and non-government agencies, and in scientific research. Students must complete at least one approved Bachelor of Science (International) major and one language minor.

Science discipline areas: please refer to Bachelor of Science
Language discipline areas:
• Chinese Studies (Extended)
• French Studies (Extended)
• German Studies (Extended)
• Indonesian Studies (Extended)
• Japanese Studies (Extended)
• Korean Studies (Extended)
• Spanish and Latin American Studies (Extended)

The availability of majors may be subject to review. Please visit the Faculty of Science website for updates: science.unsw.edu.au

Career opportunities
A flexible degree with a broad range of career options in Australia and overseas. Graduates are employed in a variety of science- and technology-based roles, management, research, and communications in industry, government, and the private sector.

Combine this degree with:
Bachelor of Arts (3986)
Bachelor of Science and Business (3925)
Duration: 3 years
Entry: February and September
Estimated first year tuition: $A43,920
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics and Chemistry plus one or more of Biology, Earth and Environmental Science, Physics, or Mathematics Extension 1 (depending on chosen area of study)
Faculty: Science
The program allows students to combine a coherent stream of studies in a contemporary science discipline with courses that provide a broad background to business and management. You will study a range of foundation business courses that will provide exposure to several aspects of business practices. You will also have the opportunity to increase your breadth of experience using electives and select from a mixed number of higher year courses to gain a greater understanding of a feature of the commercial domain.

Career opportunities
Work in a variety of fields in science and technology-based industries, management, research, and communication in government and the private sector. Graduates are skilled in the context of working in science industries as well as understanding the commercial environment.

Combine this degree with:
Bachelor of Laws (5 years)

### Direct entry table key notes

**Entry guide key**

- **Points for Compulsory Mathematics**: A=4, B=3, C+ = 2.5, C =2, C- =1, F=0. Graduation Diploma: A=2.5, B=2, C=1.5, D=1, E=0.5; H2 – A=5, B=4.5, C+ = 4, C =3.5, D=3, E=2.5; H2A – A=6, B=5.5, C+ = 5, C =4.5, D=4, E=3.5.

- **Points for Extension Mathematics**: Additional points for students who have completed relevant subjects in high school. Details at secondary.unsw.edu.au/extensionmaths.

- **Before October 31st**: Only completed Grade 12 subjects are counted. For more details, visit the UNSW website.

- **After October 31st**: The total of evidence-based reading and writing test scores must be at least 19. Must be 18 years of age by October 31st of the year of application. Must meet current entry requirements at time of offer.

- **IB Diploma**: Minimum score 24, 31 preferred. Optional Grade 12 subjects. Category B and C subjects must contribute at least 50% of the total points achieved from the best 5 Category B and C subjects. Details at secondary.unsw.edu.au/ib.

- **Saudi Arabia**: Applicants must meet the minimum requirement of 550/600 or 80% in the Saudi Ministry of Education test, followed by a performance test. Details at secondary.unsw.edu.au/saudi.

- **September to February for Term 1**: Offers are released from September 1st for Term 1.

- **August 31st**: This is because results will be available at the end of October for students with evidence of successful completion of the IB. Applicants completing the IB in August 2024 must have completed all IB subjects by August 31, 2024. Details at secondary.unsw.edu.au/ib.

### Program information

#### Indian State Boards (Indian Higher Secondary Certificate)
- **Delhi**: 600 (80%) – 660 (88%) / 750
- **Gujarat**: 630 (80%) – 680 (88%) / 750
- **Haryana**: 630 (80%) – 680 (88%) / 750
- **Madhya Pradesh**: 630 (80%) – 680 (88%) / 750
- **Maharashtra**: 630 (80%) – 680 (88%) / 750
- **Orissa**: 630 (80%) – 680 (88%) / 750
- **Rajasthan**: 630 (80%) – 680 (88%) / 750
- **Tamil Nadu**: 630 (80%) – 680 (88%) / 750
- **Telangana**: 630 (80%) – 680 (88%) / 750
- **Uttar Pradesh**: 630 (80%) – 680 (88%) / 750

#### Other acceptable qualifications

- **Aptitude Test (GSAT)**: Taiwan Chinese General Scholastic Aptitude Test; Korean College Scholastic Aptitude Test; Sijil Tinggi Pelarjaran Malaysia (STPM), Malaysian Higher Secondary School Certificate (SPM); Sijil Tinggi Persekolahan Malaysia (STPM), Malaysian Higher Secondary School Certificate (SPM); University Matriculation Certificate (UEC), National Secondary School Certificate (Sijil Pendidikan Sekolah Menengah, SPM); Chinese University Entrance Exams; Chinese National College Entrance Examination (Gao Kao); Chinese National College Entrance Examination (Gao Kao); National Higher Education Entrance Examination (Gaokao).

#### Important information regarding IUC

- **IUC**: International Undergraduate Certificate.

#### Commonly Accepted Secondary Qualifications

- **Graduation Diploma**: A=2.5, B=2, C=1.5, D=1, E=0.5; H2 – A=5, B=4.5, C+ = 4, C =3.5, D=3, E=2.5; H2A – A=6, B=5.5, C+ = 5, C =4.5, D=4, E=3.5.

- **Chinese National College Entrance Examination (Gao Kao)**: The qualifications listed on this page will be considered to meet the equivalent of an A level. The minimum required English level is B1 according to the Common European Framework of Reference for Languages (CEFR). Details at secondary.unsw.edu.au/graduationdiploma.
HOW TO APPLY

1 Choose your program
Choose your program at international.unsw.edu.au or from our International Student Guide and make a note of the program code.

2 Check your entry requirements
You need to satisfy your chosen program’s entry requirements (see page 72 for the requirements specific to your program). You also need to satisfy UNSW’s English language requirements (see page 78 and visit www.unsw.edu.au/elp).

3 Submit your application online
Submit your application at UNSW Apply Online apply.unsw.edu.au. Click ‘Register now’ and fill out your details. Upload your supporting documents and pay your application fee.

4 Track your application
Once you have submitted your application you will be able to easily track its progress via your Apply Online account. You will also be able to upload any additional documents we need.

5 We will send you a letter of offer
We will notify you of the outcome of your application via email. If your application is successful, you will receive a full offer, or a conditional offer if more steps are required. If you are receiving assistance with your application, your nominated agent will also receive a copy of the email.

6 Accept your offer
If you receive a full offer, you will also receive an email with a link to your personalised offer page. Your page will guide you through the process of accepting or deferring your offer. Once you have accepted and paid your deposit, you will receive an electronic confirmation of enrolment (eCoE).

7 Enrol online
You can then enrol in your degree and courses online at myUNSW my.unsw.edu.au.

Need help?
If you have any questions regarding your application, go to enquiry.unsw.edu.au.

Other ways to apply
You can also apply to UNSW at a conference or event where we are present, or through a UNSW agent located in your country. Find out more at international.unsw.edu.au.

Application deadline
We encourage you to submit your completed application as early as possible to ensure it will be processed in time for your preferred term. Some high-demand programs, such as Engineering and faculties with limited places such as Medicine, may have an earlier application deadline or may have an earlier commencement date.

For more information go to applyonline.unsw.edu.au

UNSW UNDERGRADUATE

SCHOLARSHIPS

A wide range of scholarships are available for international students.

1 Search
Visit scholarships.unsw.edu.au. Make sure you select ‘International’ in the Residency search box to see the list of scholarships available to you.

2 Register
Before applying for your chosen scholarship, first register an account by following the instructions on the page. You need to have lodged an application for admission at UNSW to be able to register and apply for a scholarship.

3 Apply
To apply, log in using your registered login and password. Double-check the requirements as some scholarships may have specific questions or require supporting documentation.

4 Submit
Submit your application by the due date. Don’t forget to check the website regularly for application deadlines and updates.

UNSW undergraduate coursework scholarships
UNSW scholarships for international students provide financial support to cover some of the costs associated with studying at Australia’s global university. Scholarships recognise students who demonstrate academic achievement or other outstanding qualities such as sporting ability or contributions to the wider community.

To be considered for a scholarship, you must submit a separate application in addition to your application for admission in UNSW.

Other scholarship providers
There are many scholarships offered by organisations other than UNSW including the Australian government, industry partners, and organisations in your home country.

Australian government scholarships
Australia Awards are international scholarships and fellowships funded by the Australian government offering the next generation of global leaders an opportunity to undertake study, research, and professional development. For more information, go to www.australiaawards.gov.au.

Visit scholarships.unsw.edu.au. Make sure you select ‘International’ in the Residency search box to see the list of scholarships available to you.
ENTRY REQUIREMENTS
To gain entry to UNSW, you’ll need to meet both the academic entry requirements and the English language requirements.

Academic entry requirements

High school studies
Direct entry applicants to UNSW Sydney must hold high school qualifications acceptable for admission. As a minimum, you must have a qualification considered equivalent to a Year 12 qualification (completion of high school) in Australia. Some of the qualifications UNSW Sydney accepts are listed on page 72. If your qualifications are not listed, contact the Admissions Office to check whether they are recognised: enquiry.unsw.edu.au

UNSW Foundation Studies
UNSW Foundation Studies can be completed by students who do not meet entry requirements or whose high school qualifications are not recognised by UNSW Sydney and are not high enough to qualify for a Diploma. After completing Foundation Studies in the appropriate academic stream, if you achieve the Grade Point Average (GPA) and the English language result required for entry into the program, you will qualify for a place. UNSW Foundation Studies: page 81 or visit unswglobal.unsw.edu.au/foundation.

UNSW Diploma
UNSW Global offers the UNSW Sydney Diploma programs in Engineering or Science which are a great option for students seeking entry into a degree program. After completing an 11-month diploma, you enrol directly into the Second Year of the selected degree program in Engineering or Science. You will study equivalent courses to First Year degree students with the support of additional tutorials and language studies. Students who complete the diploma and their undergraduate degree graduate with two UNSW Sydney qualifications. UNSW Diplomas: page 80 or go to unswglobal.unsw.edu.au/diploma.

Recognised prior study
Prior study can be recognised for applicants with diplomas from recognised institutions – this is called articulation. Entry is based on academic achievement during your diploma studies. If you intend to use a diploma as a pathway to UNSW Sydney, we recommend you confirm accreditation before committing to a program. The UNSW Sydney Admissions Office can confirm whether your study can be recognised: enquiry.unsw.edu.au

University transfer
To transfer from your current university to UNSW Sydney you must have completed at least one year of a Bachelor degree at a recognised university. Entry will be based on academic results during these studies. Some faculties also consider final year high school qualifications plus results from one year of university study. The UNSW Sydney Admissions Office can confirm whether your studies can be recognised: enquiry.unsw.edu.au

You may also be able to transfer credit for subjects you have studied. See our credit transfer information: credittransfer.unsw.edu.au

Evidence of English language ability

If English isn’t your first language, you must provide evidence that your English language ability meets our requirements. You must submit results from an acceptable English language test taken in the last two years prior to starting study at UNSW Sydney. See our English language requirements policy: unsw.edu.au/elp

International English Language Testing System (IELTS) - Academic
An overall minimum score of 6.5 with a minimum score of 6.0 in the sub-tests of listening, reading, speaking, and writing is required. Some UNSW Sydney programs require a higher score. www.ielts.org

Test of English as a Foreign Language (TOEFL)
A TOEFL iBT overall minimum score of 90 (minimum 23 in writing, 22 in reading, 22 in listening, and speaking). Paper-based test: an overall minimum score of 577 with a minimum score of 5.0 in the Test of Written English. Some UNSW Sydney programs require a higher score. www.ets.org/toefl

UNSW Global English language courses are specifically designed to enable you to improve your English proficiency to meet the UNSW English language entry requirements and equip you with the academic skills to start your UNSW Sydney degree. The comprehensive range of English language courses covers academic English, general English, and professional English.

All courses have been developed and are delivered by highly qualified and experienced specialist English teachers. Programs are popular, so we recommend you apply at least three months before your intended degree start date.

For more information visit: languages.unsw.edu.au

Tertiary Orientation Program

If you already meet the English language entry requirements for UNSW Sydney but need to gain confidence or improve your English skills for an academic environment, you may want to take this intensive five-week course before starting your UNSW Sydney degree. It will also give you time to settle into Sydney, familiarise yourself with the university environment, and meet fellow students.

UNSW DIPLOMAS

A UNSW Diploma in Engineering or Science is designed for students who miss out on direct entry to a UNSW Sydney degree and who want a fast track to the Second Year of a degree in Engineering or Science at UNSW Sydney.

Successful students will receive two UNSW Sydney qualifications—a Diploma and a Bachelor degree. Diploma students study equivalent courses to First Year undergraduate degree students which are delivered in a program supported by additional class time, small tutorial classes, and additional free tutoring consultations. The UNSW Diploma is tailored to international students and is designed to prepare you for success across your diploma and degree studies.

The Diplomas also include a compulsory Communication and Academic Literacy (CAL) module specially designed to equip learners with the academic literacy and communication skills they require to succeed in their tertiary studies. This module is characterised by a focus on tertiary communication skills they require to succeed in their tertiary studies. This module is recommended if you have very strong English language skills and have graduated from high school. You will need a senior high school qualification such as A-Levels, International Baccalaureate Diploma, Gaokao, or HKDSE, plus IELTS of 6.0 (with 5.5 in writing and minimum 5.0 in other sub-scores) or equivalent. A UNSW Foundation Diploma is recommended if you have very strong English language skills and have completed at least 11 years of schooling or if you have just missed out on direct entry to a UNSW Sydney degree program and don’t qualify for a Diploma then you should consider a UNSW Foundation Studies program to meet the academic entry requirements for an undergraduate degree at UNSW.

Diploma in Engineering

After successfully completing the 11-month diploma program, you will proceed straight into Second Year of your chosen undergraduate Engineering degree program at UNSW Sydney (see options below). The duration of your study from the start of the Diploma to the end of your Bachelor program is the same as for a direct entry student.

All undergraduate Engineering programs offered by the UNSW Faculty of Engineering are accredited by Engineers Australia, meeting the examination requirements for admission to graduate and corporate membership. The UNSW Engineering Faculty is ranked No. 1 in Australia. Diploma in Engineering specialisations include: Aerospace, Manufacturing, Mechanical, Mechatronic, Photovoltaics and Solar Energy, Renewable Energy, Computer Engineering, Electrical, Telecommunications, Chemical, Civil, Environmental, Industrial Chemistry, Mining, Petroleum, Bioinformatics, Materials Science.

Diploma in Science

After successfully completing the 11-month diploma program, you will go straight into Second Year of your chosen undergraduate Science program at UNSW Sydney (see options below). The Faculty of Science enrols the brightest students from around the world who want to learn from award-winning academics, access cutting-edge facilities, and connect with industry leaders.

Diploma in Science specialisations include: Chemistry, Materials Science, Mathematics, Physical Oceanography, Physics, Statistics, Anatomy, Biology, Genetics, Food Science, Marine Science, Microbiology, Molecular and Cell Biology, Pathology, Pharmacology, Physiology.

UNSW FOUNDATION STUDIES

If you have completed at least 11 years of schooling or if you have missed out on direct entry to a UNSW Sydney degree program and don’t qualify for a Diploma, you should consider a UNSW Foundation Studies program to meet the academic entry requirements for an undergraduate degree at UNSW.

A packaged visa covering these programs is available. See page 79 for the Foundation English Entry Course (FEEC) information.

UNSW Foundation Studies is the longest running and leading provider of pre-university programs in Australia. You’ll learn high-level academic skills needed for a smooth transition into UNSW undergraduate studies. International students who successfully complete a UNSW Foundation Studies program will have a guaranteed place in a UNSW Bachelor degree.

Our teaching style follows university practice with lectures and tutorials. Most tutorial classes have about 18 students, so you will receive the attention you need to succeed. You will also participate in class activities which help develop your presentation skills and give you greater confidence in speaking English. With over 25,000 graduates and over 85% of students qualifying for university, our Foundation programs are designed for success.

You will study on the beautiful UNSW Sydney campus in Kensington and enjoy access to world-class libraries, labs, classrooms, and sporting and social clubs.

UNSW Medicine

B Medi MD program: $1,455, $1,540
Non B Medi MD program: $930, $985

UNSW Science

$915, $970

* Indicative fee only.

FEES ARE CHARGED BASED ON THE YEAR OF COMMENCEMENT

For example, if you start in Term 3 (September) 2019, the fees for the first term will be calculated at 2019 rates. Your second term will be calculated at 2020 rates. If you are required to complete a course again, you will be charged at the rate applicable to the year you re-take the course.

ESTIMATING YOUR TUITION FEES

While it isn’t possible to give a fixed annual fee for each program, it is possible to provide an estimate. Estimates for each program are outlined in the undergraduate degrees section, starting on page 28.

You can also calculate your own expected fees on the following page. Most programs will require 48 units of credit (UOC) per year. Most courses (subjects) are 6 UOC.

General Education course fees are charged at the rate set by the relevant faculty. For example, GENT003 – Introduction to Australian Cinema will be calculated using the Faculty of Arts & Social Sciences rate.

For more information about the UNSW fees policy, including refund of fees and overpayments, visit: student.unsw.edu.au/fees-policy/international-students

OTHER STUDY-RELATED COSTS

Some programs and courses have costs which are additional to the tuition fees, such as costs relating to laboratory kits, equipment, and field trips. Textbooks are not considered compulsory but we recommend budgeting around A$1,000 per year for books.

An estimate of your total costs (tuition and other study-related costs) will be shown on your Confirmation of Enrolment Form (CoE) that will be issued on acceptance of an offer of admission to UNSW.

Living costs

Living costs vary depending on each student’s specific requirements. We estimate a single international student will need a minimum A$20,000 per year to cover general living expenses. This doesn’t include the costs of large non-essential items like electrical equipment or a car.

In addition, you will need at least A$2,000 when you arrive in Sydney to cover initial expenses such as a rental bond payment (security deposit), electricity, gas, and telephone connection fees, and basic furniture and household items.

For more information, visit: www.studyinunsw.unsw.edu.au/australialife-in-australia/living-costs

OVERSEAS STUDENT HEALTH COVER

If you are in Australia on a student visa you will need to pay for health insurance through the Overseas Student Health Cover (OSHC) scheme and maintain insurance for the duration of your visa.

All international students must be covered by health insurance from the date they arrive in Australia until the date they depart, regardless of when they start or complete their program.

It is your responsibility to ensure your health insurance policy matches your arrival and departure dates.

The only exception is for students from Belgium, Norway, and Sweden who are covered by CSIN or KammaKolleget. These students will need to provide proof of official health insurance cover from their home government provider.

There are five registered providers

The five registered providers are: Medibank Private (UNSW’s preferred overseas student health cover provider), Allianz Global Assistance, BUPA Australia, nib Health Funds Ltd and Australian Health Management. Medibank OSHC will pay benefits towards your medical and hospital treatment, medically necessary ambulance transport, and most prescription medicines. Be aware that there may be some exclusions for pre-existing conditions and you may have to serve a waiting period to receive some services.

Some services are not covered by Medibank’s policies. These include optical, physiotherapy, dental, and certain pharmaceuticals. If you want to be covered for these expenses, you will need to take out additional insurance.

FEES AND COST CALCULATION

Non B Medi MD program: $930, $985

UNSW Science

$915, $970

* Indicative fee only.

Because each student’s study choices are different, it’s impossible to provide a definitive cost of studying at UNSW. However, there are a few things to consider when calculating your expected fees.

FEES ARE COURSE-BASED

Fees for international students are set according to the course (subject) and not the program. The fees reflect the relative cost of delivering the course. For example, a science course is likely to cost more than an arts course. Therefore, your total tuition fees will vary depending on which courses you choose.

FEES VARY EACH YEAR

Fees for programs change from year to year. The tuition fees listed above are for students in 2018. The fees listed for 2019 reflect the relative cost of delivering the course. For example, a science course is likely to cost more than an arts course. Therefore, your total tuition fees will vary depending on which courses you choose.

FEES VARY EACH YEAR

Fees for programs change from year to year. The tuition fees listed above are for students in 2018. The fees listed for 2019 reflect the relative cost of delivering the course. For example, a science course is likely to cost more than an arts course. Therefore, your total tuition fees will vary depending on which courses you choose.
3. Program Preferences – you may nominate up to three coursework program choices.

Preferred year of study:                                             Preferred term:  Term 1 (February)  Term 3 (September)
Study mode:  Full-time  Part-time

Preference Program code
e.g. 8404
Program name: e.g. Bachelor of Commerce Specialisation: e.g. Finance

1st  2nd  3rd

UNSW ONLINE APPLICATION FEE
(non-refundable)
A$125 unless a fee waiver code has been provided by a UNSW representative or staff member at a recruitment event.

OFFICE USE ONLY – Fee Waiver Code

If you have applied to UNSW before, what is your student ID?  

Family name:  
First given name:  
Other given names:     Previous names:     Date of birth (dd/mm/yy):                                              Gender: M  F

Country of birth:                                                  Country of citizenship:  
Are you an Australian permanent resident?  YES  NO  If yes, provide your visa number:

Email address (compulsory): 
Mobile (Cell) number: 
Home number:  
Work number:  
Mailing address (This is the address the University may send all correspondence to):

Residential address (This is the address where you currently live. Please do not use a PO Box address):   same as mailing address

4. Sponsorship

I will be sponsored:   YES  NO  
If yes, my sponsor details are: (organisation, country)

5. English Language Proficiency – for further details please visit, unsw.edu.au/elp

English is my first language. YES  NO  
OR the sole language of instruction and assessment in my degree or diploma (within the last 2 years) was English. Please note that these studies must have been for a minimum duration of one full-time.

OR I hold a certificate of English proficiency from an approved test (e.g. IELTS or TOEFL) undertaken within the last two years.  

This is NOT an application form. Please DO NOT send this form to UNSW. To apply, please go to apply.unsw.edu.au
6. Academic Qualifications – Please complete the relevant sections

6.1 Secondary Qualifications (e.g. High School, Foundation) Note: If you are applying for postgraduate programs you do not need to provide these details.
Country in which you attended high school:
Name of qualification:
Name of institution:
Have you been awarded this qualification? Yes □ No □
If yes, what was your score or grade?
Date qualification was/will be awarded: / / (dd/mm/yyyy)

6.2 Post-Secondary and Tertiary Qualifications
Study level (e.g. Diploma, undergraduate, postgraduate):
Country:
Name of institution:
Qualification awarded:
Have you completed this qualification? Yes □ No □
If yes, what was your score, GPA or overall achievement?
Dates of study: From: / / To: / (dd/mm/yyyy)
Date qualification was/will be awarded: / / (dd/mm/yyyy)
Honours category (if relevant):
Are you seeking credit for any of the above tertiary study? Yes □ No □

7. Other qualifications – if not relevant, do not complete this section
Please include details of other qualifications and/or memberships of professional bodies relevant to your application. e.g. Institute of Chartered Accountants (ICAA) or Engineers Australia (IEAust).

8. Declaration and signature
I declare that the information disclosed on this form is complete and correct. I authorise the University to obtain information from any educational institution previously or currently attended by me. If any information supplied by me is considered to be untrue, incomplete or misleading in any respect, I understand the University may take such action as it believes necessary including the disclosure of the information to any person or body the University considers has a legitimate interest in receiving it and I consent to such disclosure. I understand the University reserves the right to make alterations to any matter offered in this publication without notice and that this agreement does not remove my right to take further action under the Australian consumer protection laws.

Signature:

This is NOT an application form. Please do NOT send this form to UNSW. To apply, please go to apply.unsw.edu.au
9. Please select a UNSW Diploma program (if applicable)

Degree you wish to pursue (select ONE)

- [ ] Engineering
- [ ] Science
- [ ] Life & Environmental Sciences
- [ ] Business
- [ ] Biomedical Science
- [ ] Information Technology
- [ ] Architecture
- [ ] Law
- [ ] Design
- [ ] Nursing
- [ ] Dentistry
- [ ] Fine Arts
- [ ] Languages
- [ ] Health Science
- [ ] Arts
- [ ] Social Science
- [ ] Agricultural, Food & Wine
- [ ] Sports Science
- [ ] Equity

10. Please select English Language course (s) (if applicable)∗

∗Note: Foundation Studies and Diploma applicants do NOT complete this section. Students applying for University English Entry Course (UEEC) must submit their UNSW conditional offer and an English test result. Depending on your English test result, we will issue you with an English offer that also includes Essential Academic English courses and Essential English courses (if required).

Academic English:

- [ ] University English Entry Course (UEEC)
- [ ] Tertiary Orientation Program (TOP)
- [ ] ILTS Test Preparation

Start date:

/ / 

[ ] Please refer to the Program Start Dates on the website at https://languages.unsw.edu.au/

Other English:

- [ ] English for Law
- [ ] Career English
- [ ] Essential English

Start date:

/ / 

[ ] Please refer to the Program Start Dates on the website at https://languages.unsw.edu.au/

11. English Proficiency

Have you taken an IELTS, TOEFL, or other recognised English Proficiency test?

[ ] Yes. Please attach a certified copy of your English test results on the case of ESLU, provide the ILTS test number.

[ ] No. A conditional Foundation Studies or Diploma offer will be issued until the English Language Requirements have been met.

12. Scholarship

Have you been granted a scholarship?

[ ] Yes
[ ] No

Scholarship Name or Sponsor Name:

13. Airport Pick Up

Do you want to be picked up by a UNSW Global approved driver when you arrive at Sydney airport? Our airport pickup fee is AU$150.

[ ] Yes
[ ] No

14. Overseas Student Health Cover (OSHC)

UNSW Global can arrange visa-length health cover with Medibank, our preferred provider of OSHC. If you want UNSW Global to purchase OSHC on your behalf, your personal information will be disclosed to Medibank, in accordance with our Privacy Policy for the purposes of arranging your OSHC. You must maintain OSHC for the proposed length of your student visa. It is a breach of your visa conditions to arrive in Australia before your OSHC commences.

Do you want UNSW Global to purchase OSHC on my behalf?

[ ] Yes
[ ] No

Will I make my own OSHC arrangement?

15. Students with a disability/health condition

Do you have a learning difficulty or health condition that may impact on the way you study, attend class or sit assessment?

[ ] Yes
[ ] No

Telling us about a disability will not prejudice your application. The earlier you tell us, the better we are able to work with UNSW and others to assist you to make adjustments in time and this could affect your ability to progress in your UNSW Global program and/or your preferred program at UNSW.

If you disclose a disability to us, please indicate that you consent to use of this information only for the purposes above by ticking this box

16. Declaration

I certify that the information on the form is correct and complete in every detail, and I understand that inaccuracies or omissions may result in non-acceptance or cancellation of enrolment at any time. I have read and understood the Conditions of Enrolment and acknowledge that personal information provided is covered under the Privacy Policy.

Signature of Student (as it appears in your passport):

Date (dd/mm/yyyy):

Unsigned applications cannot be processed. Please sign your name on the signature box. A typed-in name cannot be accepted.

Education Representatives cannot sign on behalf of the student. If applicant is under 18 years of age the signature of a Parent or Legal Guardian is required.

Signature of Parent or Legal Guardian:

Date (dd/mm/yyyy):

Email of Parent or Legal Guardian:

Correspondence:
