UNSW Apply Online has a new look!

- Agents will now have a dedicated login (you’ll know you’re on the right page when you see the Harbour Bridge)
- You can access both versions from the same URL [https://apply.unsw.edu.au/](https://apply.unsw.edu.au/)

Agent Login Page

Direct Applicant Login Page

Once you click **Register Now** and accept the terms and conditions:

- Start typing your agency name for options to appear
- Use your student’s email address to register the applicant
- Create a password
If you are logging in to an already registered application you will be able to view any applications in process or add a new one through the start page.

The **Personal Details** page has 6 simple tabs to complete, each expanding as required.

The Program Code field is predictive, so as you type the number program options will appear.
Once you have selected the student’s program preferences you will be able to drag and drop the programs in order of preference before you continue with the application.

The Other Details section will only have compulsory fields when relevant, otherwise they can be skipped.

NOTE: This is the page where you will enter the Event Code. Be sure to enter the code before continuing past the summary page as it cannot be entered after completing the application.

You will be able to review application details before going on to attach documents and pay the application fee.
