Experience UNSW Sydney

Every new experience today shapes your tomorrow

Success is a journey. Take a path that offers exciting opportunities along the way. At UNSW Sydney, we provide outstanding experiences so you can reach your full potential and build your future career.

UNSW is an internationally acclaimed teaching and research powerhouse with three modern campuses, giving you a learning experience packed with academic programs, student activities and educational services.

Working within our top 50 university, our academics are recognised as global leaders in their fields. Our students study in world-class facilities, interact with industry leaders, and apply the latest research to real-world situations.

You will learn to challenge traditional thinking, to push boundaries, and to be innovative. We make sure our graduates have both the theory and practical experience they need to graduate and join our alumni community achieving incredible things around the globe.

We are proud to be ‘Australia’s Global University’, placed among the world’s best. Through our 2025 Strategy, we are deepening our research and teaching, partnering with more governments and universities, and transforming the lives of people around the world.

Choosing your university is an important decision. We hope you take the leap to join our community and discover a wealth of opportunities at UNSW.
A student start-up

Business School students Vanessa Zhao, Ho Jun Tang, Ben Delaney and Adrian Brossard used their degrees—and assistance from the UNSW Founders program—to help set up a prize-winning tech company.

The students came together to co-found YellowBox, a start-up which specialises in short-term self-storage using Bluetooth technology. The innovative idea earned them $5,000 as runners-up in the prestigious Peter Farrell Cup in 2018.

“The courses at UNSW have deepened my understanding of business and everyone at the university was very welcoming right from the beginning,” says Vanessa.

The Founders program provided start-up resources, ideation training and presentation advice, as well as hot-desking office space in the Michael Crouch Innovation Centre (MCIC).

Gregory Davis, Prototype Manager at the MCIC, says the centre’s Makerspace is the perfect place for international students to meet new people and collaborate on great ideas.

“All users are equal in this safe making community regardless of their facility, degree, level of expertise or the scope of their project. It is common to see someone developing a high-tech robot alongside someone making artisan-style jewellery,” he explains.

“The UNSW Founders program coached us through the whole start-up process and it’s given us a lot more direction and allowed us to focus on goals and tasks.”

VANESSA ZHAO
Bachelor of Commerce

To find out more about the UNSW Founders program visit founders.unsw.edu.au.
We are ranked 45th globally.
QS World University Rankings, 2019

With Mineral & Mining Engineering (6th), Civil & Structural Engineering (12th), Law (14th) and Accounting & Finance (15th) all in the top 15.
QS World University Rankings by Subject, 2019

We are the 23rd most international university in the world.
Times Higher Education World University Rankings, 2018

UNSW Sydney has been awarded the highest number of Australian Research Council Discovery Projects in Australia for three years in a row (2017, 2018, and 2019). Total funding awarded over that period was in excess of $91M.

UNSW Sydney was the first university in the world to be awarded the maximum QS Five Star Plus rating across teaching, research, employability, facilities and innovation categories. We continue to hold this rating in 2019.

Global employers of UNSW alumni. Data sourced from LinkedIn.
We transform clever ideas and research discoveries into successful innovations to benefit society, the economy and future generations.

We conduct research across a wide range of areas. We invest considerable resources in areas where we believe can make the biggest difference, such as:

- **Solar power (photovoltaics):** We hold the world record for the conversion efficiency of a silicon solar cell, and we are home to one of the world’s fastest solar-powered cars.

- **Clean drinking water:** We created membrane filtration technology to filter water that is now used in taps around the world.

- **Population Ageing:** We are developing economic and health policy frameworks for government and industry to sustainably manage this global challenge.

- **HIV/AIDS:** Since diagnosing Australia’s first case of HIV, we have been involved in the development of every existing antiretroviral HIV drug.

- **The world’s first quantum computer:** Using silicon, we are one of the global leaders in the race to build a quantum computer.

**Supporting entrepreneurs**

UNSW offers Australia’s most comprehensive university entrepreneurship program. The Founders Program embeds entrepreneurial skill building within the university community at scale, while also identifying and supporting exceptional entrepreneurial talent to launch start-ups with global impact.

The program offers:

- Foundational workshops, masterclasses and hackathons to instill entrepreneurial skills and confidence in budding entrepreneurs

- Pre-accelerator programs, such as the Founders Start, Launch and Grow for those looking to refine and test their business proposition

- New Wave Founders, a program that offers tailored opportunities for female entrepreneurs

- Global Founders, a program to help launch founders into foreign markets

- FounderLab, a world-first on-campus program that offers technical development and support for non-technical founders

- Founders 10x Accelerator, our flagship 10-week intensive accelerator program for 10 high-impact startups

For more information, visit founders.unsw.edu.au.

**Define the future with research and innovation**

One of the country’s largest research communities with approximately 4,500 dedicated research students.

The Torch Innovation Precinct brings together industry, entrepreneurs, investors, and policy makers from around the world. These networks allow us to facilitate the transition from innovation to research and development to realisation.

12 Australian Research Council Centres of Excellence.

UNSW graduates the highest number of tech startups in Australia and boasts the most extensive entrepreneurship support through the UNSW Founders Program.
Experience Sydney, one of the world’s best cities

The business capital of Australia

Sydney is home to more global firms than any other Australian city. A gateway to Asian economies, the city attracts great minds and is known for its ideal climate, relaxed outdoor lifestyle, and friendly locals. It’s no wonder Sydney was voted the 10th-best city in the world to live and work.*

*Mercer Quality of Living Survey, 2018
Student friendly

Sydney is a diverse and cosmopolitan city. It ranked 9th best city in the world in the QS Best Student Cities Index 2018. The Harbour City is not just a destination but a life experience. World-class performances, spectacular events, and stunning landscapes await you in a city where there is as much to do at 7am as 11pm.

Love Sydney for less

There are endless affordable indoor and outdoor activities to enjoy in Sydney. Visit free art galleries, watch a movie at the local cinema, set off on a coastal walk, enjoy a barbecue in the park, go deep-sea fishing or surfing at the beach, or have a cheap lunch or dinner in our neighbouring suburbs.

Surrounding areas

UNSW is in the leafy Eastern Suburbs, minutes away from Coogee Beach and Centennial Park. The surrounding suburbs of Kingsford, Randwick, and Maroubra are full of cafes and restaurants offering an impressive range of international cuisine, reflecting the area's diversity.

Outside Sydney

Catch a train to the Blue Mountains for some fresh air, go north or south along the coast for quiet and stunning beaches, or head inland for Australian rural life. And you can always take a plane to Melbourne, the Gold Coast, New Zealand, or Bali, just like the locals.

For more information, visit international.unsw.edu.au/sydney-worlds-best.
Tailor your studies to suit you!

We want you to enjoy a flexible study experience at UNSW, so we have introduced UNSW3+, a new and innovative academic calendar.

UNSW3+ features three standard 10-week teaching terms plus an optional five-week summer term.

You will study eight courses per year which means you can enjoy a lighter study load of just two courses during one of the terms. It may be possible for you to complete nine courses per year (three courses per term) and take a reduced load of seven courses in a subsequent year. This gives you more opportunities to get involved outside of your studies, to complete an internship or build your networks to make you more employable!

From 2020, some undergraduate and postgraduate degrees will have three intakes - Term 1 (February), Term 2 (June) and Term 3 (September).

Check the UNSW Degree Finder for up-to-date information at degrees.unsw.edu.au.

The UNSW3+ calendar dates for 2020 and beyond can be found at student.unsw.edu.au/calendar.
UNSW Foundation Studies and Programs

If you have completed at least 11 years of schooling or if you have finished high school and just missed out on entry to a UNSW Sydney degree or diploma program then you should consider a UNSW Foundation Studies program to meet the academic entry requirements for an undergraduate degree or diploma program at UNSW.

A packaged visa covering your Foundation program and UNSW degree program is available and also a UNSW Global English course if required. See page 25 for the Foundation English Entry Course (FEEC) information.

UNSW Foundation Studies is the longest running and leading provider of pre-university programs in Australia. You’ll learn high-level academic skills needed for a smooth transition into UNSW undergraduate studies. International students who successfully complete a UNSW Foundation Studies program will have a guaranteed place in a UNSW bachelor degree.

Our teaching style follows university practice with lectures and tutorials. Most tutorial classes have about 18 students, so you will receive the attention you need to succeed. You will also participate in class activities which help develop your presentation skills and give you greater confidence in speaking English. With over 30,000 graduates and over 85% of students qualifying for university, our Foundation programs are designed for success.

You will study on the beautiful UNSW Sydney campus in Kensington and enjoy access to world-class libraries, labs and classrooms as well as sporting and social clubs.

This intensive program is recommended if you have strong English language skills and have graduated from high school. You will need a senior high school qualification such as A-Levels, International Baccalaureate Diploma, Gaokao or HKDSE, plus IELTS of 6.0 (with 5.5 in writing and minimum 5.0 in other sub-scores) or equivalent.

2020 PROGRAM FEE: A$32,900

Standard Foundation Program (9 months)

This program is recommended if you have strong English language skills and strong academic results. You will have completed 11 or 12 years schooling plus IELTS of 6.0 (with minimum 5.0 in other sub-scores) or equivalent. An offer can be made on the basis of your Year 11 or Year 12 Semester 1 results.

2020 PROGRAM FEE: A$33,850

Standard Plus Program (12 months)

This program is recommended if you have good English language skills and good academic results but would like a steady pace of study. You will have completed 11 or 12 years schooling plus IELTS of 6.0 (with 5.5 in writing and 4.5 minimum in all bands) or equivalent.

2020 PROGRAM FEE: A$39,900

Extended Foundation Program (15 months)

The Extended Program is for students who have completed at least 11 years of schooling and require additional English and academic support before commencing their university studies. You should have an IELTS of 5.0 (with minimum 5.0 in writing and 4.5 minimum in all bands) or equivalent.

2020 PROGRAM FEE: A$45,800

Foundation English Entry Course (2-4 months)

If you have just missed out on the English entry requirement for a Foundation Studies Program, you can enrol in a 10, 18 or 20 week Foundation English Entry Course followed by a Foundation Studies program above. You will typically need an IELTS of at least 4.5 (with a minimum of 4.5 in all sub-scores) or equivalent to apply for this packaged program.

2020 PROGRAM FEE: A$11,200

Academic and English language entry requirements to UNSW Foundation Studies and Diploma programs

Contact UNSW Global or visit UNSWGlobal.unsw.edu.au to find out about more qualifications.

If you are not eligible for the programs due to English language requirements, you may apply for the Foundation English Entry Course (FEEC). See page 25.

UNSW Global supports your academic success outside of formal classes

In all UNSW Global programs, students have additional academic support including free one-on-one consultation sessions, specialist workshops on challenging topics, Conversation Club, access to a comprehensive Learning Support Unit and online support activities to assist with exam and study preparation.

Application form

You can find an application form for the UNSW Global programs on page 91.

UNSW Diplomas

A UNSW Diploma in Engineering or Science is designed for students who miss out on direct entry to a UNSW Sydney degree and who want a fast track to the second year of a degree in engineering or science at UNSW.

Successful students will receive two UNSW qualifications – a diploma and a full UNSW bachelor degree.

Diploma students study equivalent courses to first year undergraduate degree students which are delivered in a program supported by additional class time, small tutorial classes and additional free tutoring consultations. A UNSW Diploma is tailored to international students and is designed to prepare you for success across your diploma and degree studies.

The diplomas also include a compulsory Communication and Academic Literacy (CAL) course specially designed to equip learners with the academic literacy and communication skills they require to succeed in their university studies.

**High School or UNSW Foundation Studies** + **English (if required)** see UEEC page 25 > **UNSW Diploma** > **UNSW Degree (2nd Year)**

**Diploma in Engineering**
After successfully completing the 12-month UNSW Diploma, you will proceed straight into second year of your chosen undergraduate engineering degree program at UNSW Sydney (see options below). The duration of your study from the start of the diploma to the end of your bachelor program is approximately the same as that of a UNSW degree student.

All undergraduate engineering programs offered by the UNSW Faculty of Engineering are accredited by Engineers Australia, meeting the examination requirements for admission to graduate and corporate membership. The UNSW Engineering Faculty is ranked No. 1 in Australia.

**Diploma in Engineering specialisations include:**

**Diploma in Science**
After successfully completing the 12-month diploma program, you will go straight into second year of your chosen undergraduate science program at UNSW Sydney (see options below). The Faculty of Science enrols the brightest students from around the world who come to learn from award-winning academics and industry leaders on a world-class campus with cutting-edge facilities.

**Diploma in Science specialisations include:**
Anatomy, Biology, Chemistry, Food Science, Genetics, Marine Science, Materials Science, Mathematics, Microbiology, Molecular and Cell Biology, Pathology, Pharmacology, Physical Oceanography, Physics, Physiology, Statistics.
Entry requirements

To gain entry to UNSW, you’ll need to meet both the academic entry requirements and the English language requirements.

Academic entry requirements

High school studies

Direct entry applicants to UNSW must hold high school qualifications acceptable for admission. At a minimum, you must have a qualification considered equivalent to a Year 12 qualification (completion of high school) in Australia. Some of the qualifications UNSW accepts are listed on page 80. If your qualification is not listed, contact the Admissions Office to check whether you are recognised: enquiry.unsw.edu.au

UNSW Foundation Studies

UNSW Foundation Studies can be completed by students who do not meet entry requirements for a UNSW degree program whose high school qualifications are not recognised by UNSW and are not high enough to qualify for a diploma. After completing Foundation Studies in the appropriate academic stream, if you achieve the Grade Point Average (GPA) and the English language result required for entry into the program, you will qualify for a place. For more information about UNSW Foundation Studies see page 18 or visit unswglobal.unsw.edu.au/foundation.

UNSW Diploma

UNSW Diploma offers the UNSW Diploma programs in Engineering or Science which are a great option for students seeking entry into a degree program. After completing a 12-month diploma, you enrol directly into the second year of the selected degree program in Engineering or Science. You will study equivalent courses to first year degree students with the support of additional tutorials and language studies. Students who complete the diploma and their undergraduate degree graduate with two UNSW qualifications. For more information about UNSW Diplomas see page 22 or go to unswglobal.unsw.edu.au/educations.

Recognised prior study

Prior study can be recognised for applicants with diplomas from recognised institutions – this is called articulation. Entry is based on academic achievement during your studies. If you intend to use a diploma or equivalent as a pathway to UNSW, you recommend you confirm accreditation before committing to a program. The UNSW Admissions Office can confirm whether your study can be recognised: enquiry.unsw.edu.au

University transfer

To transfer from your current university to UNSW you must have completed at least one year of a bachelor degree at a recognised university. Entry will be based on academic results during these studies. Some faculties also consider your high school qualifications plus results from one year of university study. The UNSW Admissions Office can confirm whether your study can be recognised: enquiry.unsw.edu.au

You may also be able to transfer credit for subjects you have studied. See our credit transfer information at credittransfer.unsw.edu.au

English language entry requirements

Evidence of English language ability

If English isn’t your first language, you must provide evidence that your English language ability meets our requirements. You must submit results from an acceptable English language test taken in the last two years prior to starting study at UNSW. See our English language requirements policy at unsw.edu.au/elp.

International English Language Testing System (IELTS) - Academic

An overall minimum score of 6.5 with a minimum score of 6.0 in the sub-tests of listening, reading, speaking, and writing is required. Some UNSW programs require a higher score. For more information, visit unsw.edu.au/elp.

Test of English as a Foreign Language (TOEFL)

A TOEFL IBT overall minimum score of 90 (minimum 23 in writing, 22 in reading, listening, and speaking). Paper-based test: an overall minimum score of 577 with a minimum of 5.0 in the Test of Written English. Some UNSW Sydney programs require a higher score. For more information, visit www.ets.org/toefl.

University English Entry Course (UEEC)

UEEC has been developed specifically for students who have received conditional offers from UNSW but do not meet UNSW English entry requirements. It provides outstanding preparation experience for academic study at UNSW. This course is offered by UNSW Global. For more information, visit unsglobal.unsw.edu.au/english-language-courses.

Pearson Test of English Academic

An overall minimum score of 64, with a minimum of 54 in each sub-score. Some UNSW programs require a higher score.

Other English qualifications

UNSW also accepts a number of English language tests and preparation courses which can be undertaken to meet the university’s English language requirements. For information about these qualifications and the full English language requirement policy visit unsw.edu.au/elp.

UNSW Global English language courses

UNSW Global English language courses are specifically designed to enable you to improve your English proficiency to meet the UNSW English language entry requirements and equip you with the academic skills to start your UNSW Sydney degree. The comprehensive range of courses covers academic English, general English, and professional English. All courses have been developed and are delivered by highly qualified and experienced specialist English teachers. Programs are popular, so we recommend you apply at least three months before your intended degree start date.

For more information visit unsglobal.unsw.edu.au/english-language-courses.

Foundation English Entry Course (FEEC)

If you are planning to enrol in UNSW Foundation Studies prior to starting a bachelor degree, this intensive English course offers you a direct pathway to meeting the English language entry requirements for a Foundation Studies program. You will not need to retake an IELTS or similar exam after successfully completing the FEEC.

In FEEC, there is a focus on independent learning skills and study habits required for success in the Foundation Studies programs. There is a specific focus on developing listening and reading skills to comprehend academic lectures and texts, academic writing skills, presentations, discussions and group work.

For more information visit unsglobal.unsw.edu.au/english-language-courses/feec.

UNSW Global English language courses

UNSW Global English language courses

University English Entry Course (UEEC)

This intensive English course is designed to help you get into your UNSW Sydney degree sooner. On successful completion of UEEC, you will be accepted into the relevant UNSW degree without having to retake an IELTS or similar exam. Course material is based on UNSW Sydney resources and is enhanced through online learning and teaching activities. In UEEC, there is a focus on learning to use established academic conventions, producing complex academic texts, case analyses and reports required at UNSW, confidently participating in academic discussions and developing independent learning strategies.

*Most UNSW Sydney programs require a minimum overall score of C+ with a minimum of C in the writing component or a minimum overall score of B with a minimum of C+ in the writing component. Some UNSW Sydney programs require a higher grade.

Tertiary Orientation Program

If you already meet the English language entry requirements for UNSW Sydney but need to gain confidence or improve your English skills for an academic environment, you may want to take this intensive five-week course before starting your UNSW Sydney degree. It will also give you time to settle into Sydney, familiarise yourself with the university environment, and meet fellow students.

For more information, visit unsglobal.unsw.edu.au/english-language-courses.

Application form

You can find an application form for UNSW Global on page 91 of this guide.

Course fees: for fee information see unsglobal.unsw.edu.au/english-language-courses.

Maximise your career potential

Our extensive career development services can help you gain practical workplace skills, obtain professional experience and develop a plan for global career success.

UNSW Careers and Employment

Employers seek well-rounded graduates who can demonstrate relevant studies, work experience and extra-curricular involvement. Our dedicated Careers and Employment team helps students gain practical workplace skills, obtain professional experience and develop a plan for global career success. At any time during your degree, you can attend free seminars, access online resources or book a one-on-one appointment with a professional careers consultant. You’ll also have access to the Careers and Employment Office up to 18 months after completing your degree. For more information, visit careers.unsw.edu.au.

Professional Development Program for International Students

As a student, you can take advantage of a professional development program tailored to give you hands-on experience in a professional workplace. The program includes a three-day seminar covering topics such as business communication, employer expectations and recruitment processes. You also have the opportunity to complete a 50-hour workplace experience in offices located throughout UNSW.

• Get hands-on experience and confidence in a professional setting
• Improve your job application and interview skills
• Learn about employer expectations in the Australian workplace
• Improve your business communication and business writing skills

For more information, visit student.unsw.edu.au/pdp.

International Students Careers Week

A week of seminars, panels, and online events highlights the global opportunities available to international students. You can meet with international employers, create beneficial networks, and learn valuable recruitment tips from employers and alumni. For more information, visit student.unsw.edu.au/careers-week.

Internships

UNSW offers internships through Work Integrated Learning (WIL) opportunities as part of many of our degrees. These opportunities can be credited towards your degree – giving you valuable insights into your industry’s workplace culture and helping build a range of skills focused on your specific area of study. WIL provides you with specific work experience as part of your degree. Check with your Faculty Student Centre for full details of what is available.

Careers Expo

Held twice a year, our Careers Expo is a chance for students to meet and discuss potential employment and internship opportunities with over 100 participating employers, including BHP Billiton, Shell, Commonwealth Bank of Australia, Deloitte, HSBC, Microsoft, IBM Australia, and many more. For more information, visit student.unsw.edu.au/careers-expo.

Career-focused learning

Taking a professional practice course will show employers that you are career focused. It will also enhance your competitiveness in the graduate recruitment process.

DIPP1112: Creating Your Career: Employability for the Future

Develop the skills you need to be successful in the job market and to manage your ongoing career through this online course supported by interactive face-to-face seminars. For more information, visit student.unsw.edu.au/employability.

International Student Employability Guide

This employability guide is designed specifically for UNSW international students. It provides tips on how you can become more employable and includes the resources and programs available to you as a UNSW student. It also features profiles of successful UNSW international alumni which will guide and inspire you on how you can make the most of your time at UNSW. For more information, visit student.unsw.edu.au/international-student-careers.

Offshore networks

UNSW maintains offices in China, India, and Indonesia as well as staff posted around the world in North America, Europe, Africa, and South East Asia. Our overseas staff have relationships with leading industry partners to promote the UNSW brand and ensure insights from companies around the world inform our programs. For more information, visit international.unsw.edu.au.

Professional skills programs

Employers expect graduates to have strong analytical and problem-solving skills, which are vital in many industries. Gathering information, analysing it, communicating with others, utilising logic and imagination and working well in a team are all skills that help solve problems. UNSW will help you enhance your skills thanks to programs such as, Interchange and UNSW Hero Program which require students to consider and address real-world business issues. For more information, visit student.unsw.edu.au/programs.
The chance to study abroad as part of your UNSW degree is an exciting opportunity that will not only enhance your UNSW experience but will greatly benefit your career prospects. You get to travel, meet new people, study in a different country and experience a new culture. With so many different ways to incorporate a learning abroad experience into your degree, you really can go global with UNSW. Pack your bags and a can-do attitude, and all that's left is to decide when to go and where.

Broaden your horizons
Learning abroad is an incredibly enriching experience, both personally and professionally. It allows you insights into a new culture and community while giving you a competitive edge in the international workforce – not to mention it looks great on your résumé!

Where will you go?
UNSW offers many opportunities around the world including more than 300 exchange partners in 35 countries. Studying on exchange, short programs or interning in Asia, North America, Europe or South America at one of the world’s top universities or companies, may take you out of your comfort zone. However, the challenges will enable you to develop greater self-awareness and cross-cultural competencies, establish global professional networks and make lasting international friendships.

Who is eligible?
All UNSW students are encouraged to apply and there are even scholarships to help you on your way. Students can go on programs as brief as a 2-week study tour or as long as a year of exchange. One of the benefits of the UNSW academic calendar is the flexibility to choose a program that is right for you! Credit is available for many of our overseas programs. If you enrol in some degrees, such as a Bachelor of International Studies, one year on exchange is built into your degree.

For more information, visit unsw.edu.au/exchange.
Live on campus, make friends for life

UNSW has among the largest student housing capacity in Sydney with award-winning accommodation on and off campus. Live within walking distance of your lecture halls, meet people from around the world, and make lifelong friends. Alternatively, find your own home in the neighbouring Eastern Suburbs or by the beach.

Accommodation at UNSW

Colleges
Colleges provide a choice of full board, partially catered, and self-catered accommodation. There is also a range of gender-specific options including male only, female only, and mixed male and female accommodation. Most colleges cater for dietary requirements like halal, kosher, and vegetarian.

Apartments
Apartments offer independent-style living for undergraduates, postgraduates, couples, and families with children. There are apartments on and off campus and costs vary depending on the number of rooms and the location.

You should organise your university accommodation early as places book up quickly. Go to accommodation.unsw.edu.au for information about accommodation on the UNSW Campus.

Homestay (full board and room-only)
Homestay options include full board and single room-only accommodation. Full board usually includes a furnished room, use of facilities in the private home of a family or single person, plus breakfast and dinner. Some also include bed linen, a laundry service, and weekly room cleaning. Single room-only homestays include a furnished room, and gas and electricity expenses in the rent. You will be responsible for buying your own food, cooking, cleaning, and laundry and telephone costs. Costs vary but usually range from A$250 – A$350 per student per week. Search our database of locally listed private properties at studystays.unsw.edu.au.

Temporary accommodation
If you haven’t confirmed your university accommodation before you arrive, we recommend you allow three to four weeks before classes begin to look for private housing, settle in, and attend orientation sessions. Be sure to book short-term accommodation first, then look for long-term options in person. Short-term accommodation can include private hotels, motels, hostels, lodges, or furnished apartments ranging from A$45 to A$300 per day.

Private accommodation options

Rental property
There are many private rental properties in the suburbs surrounding UNSW. Costs vary according to the number of bedrooms, the condition, and location. When renting, you usually sign a six or 12 month lease and pay rent in advance plus a security deposit called a bond. You can rent a furnished or unfurnished property and generally there will be additional expenses such as electricity, gas, telephone and Wi-Fi. Costs vary but usually range from A$150 – A$300 per student per week in a shared house or apartment.

Homestay (full board and room-only)
Homestay options include full board and single room-only accommodation. Full board usually includes a furnished room, use of facilities in the private home of a family or single person, plus breakfast and dinner. Some also include bed linen, a laundry service, and weekly room cleaning. Single room-only homestays include a furnished room, and gas and electricity expenses in the rent. You will be responsible for buying your own food, cooking, cleaning, and laundry and telephone costs. Costs vary but usually range from A$250 – A$350 per student per week. Search our database of locally listed private properties at studystays.unsw.edu.au.

Temporary accommodation
If you haven’t confirmed your university accommodation before you arrive, we recommend you allow three to four weeks before classes begin to look for private housing, settle in, and attend orientation sessions. Be sure to book short-term accommodation first, then look for long-term options in person. Short-term accommodation can include private hotels, motels, hostels, lodges, or furnished apartments ranging from A$45 to A$300 per day.

Private student housing assistance
Our International Student Housing Assistance (ISHA) team can help you look for temporary or private accommodation if UNSW accommodation isn’t available when you apply. The service is available at the start of each term. For more information, visit student.unsw.edu.au/housing-assistance.

Under 18s
Arrangements must be made for students under 18 years of age. These requirements are in line with Australian Government regulations for the care and welfare of international students under 18. For more information, visit student.unsw.edu.au/visa18.
### Accommodation Options

#### The Kensington Colleges: Basser, Philip Baxter and Goldstein
The Kensington Colleges provide a home and foster a strong community with pastoral care, academic mentoring programs, sporting and regular social events.

### Set-up costs and weekly rates

- **University Terraces**
  - Affordable student accommodation, including ground floor cafes and bars — right where the action is!
  - Communal lounge for students to socialise.
- **Barker Apartments**
  - On-campus, shared independent living. Smaller apartments available for couples and families with children.
- **Mulwarree Apartments**
  - Close to campus, shared independent living.
- **High Street Apartments**
  - Close to the university with a family environment, preference given to couples and families.
- **New College Village**
  - Welcomes students of all denominations.
- **UNSW Village**
  - A range of fully furnished, stylish and contemporary apartments conveniently located on campus.
- **UniLodge @ UNSW**
  - Only 10 minutes from UNSW Kensington Campus, with a choice of fully furnished studio and shared serviced apartments with 24-hour security and a live-in manager.

### Living costs

- **Living costs are indicative only and will vary based on the location, number of people you live with and the condition of the housing.
- **Costs will vary depending on the type of accommodation and catering offered.**
Campus facilities
UNSW Sydney’s Kensington campus has everything you need, including dozens of cafes and restaurants, multiple ATMs, a bank, a post office, supermarket, food cooperative, pharmacy, medical centre and dentist, two libraries, a fitness and aquatic centre, and sports fields and courts.

Study areas
Work on your assignments at one of our many indoor computer labs or outdoor study areas complete with power outlets to charge your devices. Stay connected to family and friends with free Wi-Fi throughout the campus.

Clubs and societies
Join a club or society and make new friends. Choose from more than 300 student-led clubs and societies across a range of interests including food, sport, running, debating, conservation, the Exchange Society, and more.

Student association
Arc is our student association – it’s run by students for students. Find out about parties and events, or get discounts from partner organisations, free legal advice, and assistance with finding a part-time job or volunteer work.

Language and conversation skills
Improve your language skills by participating in one of our many programs or discussion groups on campus. We can even match you with a partner who shares your language, while you work on improving your English.

Religion centre
Our interfaith religion centre is for all UNSW students. Chaplains conduct services and study groups, and offer spiritual counselling. The Islamic Society has an Imam and meeting and prayer rooms are available.

Staying safe
To maintain our safe and enjoyable study environment, our security service provides a 24-hour comprehensive presence across campus. With our StaySafe@UNSW free app you can track the night bus and access safety tips, contacts, a newsfeed, and more.

UNSW has a village atmosphere that will make you feel at home.

Be part of a safe and welcoming community
Our students tell us we are one of the friendliest universities in Australia with many support services you can rely on.

UNSW has a range of support and development services to assist you from the time you arrive through to your graduation.

Arrival support
From picking you up at the airport, running new-arrival workshops, and taking you on campus tours, our dedicated International Student Welcome Centre will make sure you feel welcome, safe and well connected, so you can settle in.

Mentoring and Cultural Transition programs
UNSW has many mentoring programs. One of these programs is the Cultural Mentor program, where new students apply to be matched with a Cultural Mentor before they arrive in Australia. Your Cultural Mentor could be an international or Australian student. The program introduces new international students to a senior student ‘buddy’ who will answer questions about UNSW and Sydney before you arrive. After you arrive, you can meet up with your mentor to learn about Australian culture, customs, and being a student at UNSW. Cultural Transition programs include Culture of Oz, the Language Exchange Program, discussion groups, and more.

International Student Advisors
Our International Student Advisors are always here to help you with personalised advice and information about all aspects of your university life, your student visa, your wellbeing, and your academic performance. Our Advisors also run our Under 18 Care Program, supporting younger students throughout their study.

Academic support
As a UNSW Sydney student, you will have access to free online resources, academic skills workshops, individual consultations with peer writing assistants, exam preparation tips, and more.

For more information, visit student.unsw.edu.au/international.

LEAD CREATIVITY

UNSW Art & Design leads Australia in experimental art and design infused with innovation and technology.

We’re setting tomorrow’s creative benchmark in today’s connected and evolving world.

We inspire future leaders and equip them with the skills, creative thinking and connections to make their mark on the world.

UNSW ART & DESIGN

TOP RANKING IN ART & DESIGN

UNSW Art & Design is ranked 44th in the world in the QS World University Rankings by Subject, 2019 and is recognised as the top creative faculty in Australia by the Australian Research Council (ARC).

STRONG INDUSTRY CONNECTIONS

UNSW Art & Design is Australia’s largest community of art, design, and digital media practitioners, researchers, educators, and students. Our international networks are unmatched, with more than 1,000 industry partners from the business, creative and cultural industries.

STATE-OF-THE-ART CAMPUS

Our Art & Design campus in Paddington incorporates an array of cutting-edge studios, workshops, and facilities that are among the best in the world, as well as a network of museum-quality and student-led galleries and exhibition spaces to inspire you, and for you to share your work in.

**Design**

**Bachelor of Design (4822)**

Duration 3 years (+ 1 year Honours option)
Entry February and September
Estimated first year tuition A$36,480
Units of credit (per year/total) 48/144
Assumed Knowledge Visual Arts

Faculty Art & Design

With a future-focused, studio-based and research-led approach, the Bachelor of Design will equip you with the knowledge and skills to understand how design-led solutions enable people to perform at their best. In this degree you will integrate digital and physical reality systems.

**Career opportunities**

- Experience
  - Explore the way people experience and interact with space and design for fields such as exhibitions, events and performing arts.
- Graphics
  - Engage with the manipulation of image and type for applications including publications, visual identity and digital spaces.
- Interaction
  - Learn to design interactive experiences for digital systems, products, websites, environments and services preparing for a career in User Experience (UX).

**Studio specialisations**

- 3D Visualisation
  - Dive into the computer-generated world learning key technologies such as virtual reality systems.
- Objects
  - Bring together ceramic, furniture and jewellery design to explore materiality, form and practice.

**Double degree duration 4 – 4.7 years**

**Fine Arts**

**Bachelor of Fine Arts (4821)**

Duration 3 years (+ 1 year Honours option)
Entry February and September
Estimated first year tuition A$36,480
Units of credit (per year/total) 48/144
Assumed knowledge Visual Arts

Faculty Art & Design

The Bachelor of Fine Arts is a studio-based degree that enables you to develop your creative skills and knowledge. Taught by our internationally-recognised staff of artists, you will be able to develop your independent artistic practice in a rigorous and supportive community of artists and thinkers.

**Career opportunities**

- Contemporary art practice including commercial gallery representation, public funding and commissioned work, art direction and advertising, arts and cultural administration and policymaking, arts education and training, arts writing, publishing and criticism, commercial and news photography, curating and artistic program management in galleries, museums, festivals and public spaces, exhibition planning, design and installation, entertainment, digital media and technology industries, theatre, film and television production, site activation and public art.
- Printmaking
  - Gain diverse technical skills across etching, lithography, relief-printing, screen-printing and digital imaging.
- Photography
  - Develop diverse and transferable photographic skills across digital and analogue processes.
- Sculpture
  - Engage with sculptural, spatial and social possibilities of contemporary art.

**Double degree duration 4 to 5 years**

**Media Arts**

**Bachelor of Media Arts (4813)**

Duration 3 years (+ 1 year Honours option)
Entry February and September
Estimated first year tuition A$36,480
Units of credit (per year/total) 48/144

Faculty Art & Design

This is a ground-breaking degree introduced to meet industry demand for creative practitioners who can work across a range of emerging media technologies. You will be taught by accomplished, active media artists, producers and theorists, creating your work in some of the world’s best labs and studios.

**Career opportunities**

- Animation design and production, videos, online and mobile media, interaction, user experience and related environments, game development and production, digital publishing, advertising and communications, digital strategy, film, television, online and mobile production, multi-platform media development and production, production management and development, sound design, composition and production, scientific imaging and visualisation, media strategy and planning, entrepreneurship, innovation and media start-ups.

**Studio specialisations**

- Animation
  - Develop skills and knowledge across contemporary animation processes.

**Honours**

UNSW Art & Design offers honours degrees in Design, Fine Arts, Media Arts and Art Theory.

Honours is a one-year, advanced undergraduate degree for high-achieving students who have already completed a bachelor’s degree in a related area from UNSW or another university. You will develop your creative and critical skills as you undertake a year-long practice-led research project. You will also complete a professional experience project, leveraging our extensive industry networks to gain real-world experience.

For more information visit: artdesign.unsw.edu.au/honours

Please note: there may be changes to Art & Design degrees for 2020 admission, please check artdesign.unsw.edu.au for updates.

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au
ENGAGE WITH HUMANITY

UNSW Arts & Social Sciences provides a licence to explore big ideas, new perspectives, and critical social issues with Australia’s sharpest minds.

Boldly creative and intellectually adventurous, we combine time-tested traditions of scholarship with progressive, fresh ways of thinking to inform social change for current and future generations and tackle age-old philosophical questions in a new light.

We are one of the most academically energetic and socially engaged faculties of our kind in the Southern Hemisphere. Our high-quality teaching and enviable international research position demonstrates the enduring value of our interdisciplinary scholarship.

UNSW ARTS & SOCIAL SCIENCES

TOP 50 IN THE WORLD

Our academic staff are leaders in their fields and the teaching and research produced within UNSW Arts & Social Sciences is internationally acknowledged for its exceptional quality and relevance. In the 2019 QS World University Rankings by Subject we were 40th in the world for Social Sciences and 45th for Arts & Humanities.

UNSW ARTS & SOCIAL SCIENCES

STRONG INDUSTRY AND CULTURAL PARTNERSHIPS

UNSW Arts & Social Sciences has a strong network of community and industry connections including links to government agencies, professional bodies, cultural institutions, and corporate and community organisations.

We are a major partner with two of Sydney’s largest cultural festivals, the Sydney Writers’ Festival and the Sydney Film Festival, providing our students with opportunities to gain invaluable industry experience via internships, volunteering and networking with world-class professionals. Many of our professional development degrees also provide professional accreditation.

UNSW ARTS & SOCIAL SCIENCES

EXPERT TEACHING

You will be taught by industry experts and world-class scholars. In this environment, you will develop the capacity to make an informed engagement with pressing national and global issues.

Career outcomes

Our graduates translate their knowledge and skills into a range of exciting and unpredictable careers, including:

- Advocacy specialists
- CEO
- Communications specialists
- Community development organisers
- Diplomats
- Designers
- Development specialists
- Digital media specialists
- Editors
- Foreign correspondents
- Government officials
- Interpreters and translators
- Journalists
- Linguists
- Management consultants
- Media advisors
- Policy analysts
- Political advisors
- Public relations consultants
- Project managers
- Public sector managers
- Publishers
- Refugee advocates
- Research consultants
- School principals
- Social entrepreneurs
- Strategy developers
- Teachers
From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.
International Studies
Bachelor of International Studies (3447)
Duration 4 years
Entry February
Estimated first year tuition AS$37,440
Units of credit (per year): 48/192
Assumed knowledge None
Faculty Arts & Social Sciences
If you’re naturally curious about the world and how it’s changing around you, International Studies is the degree for you. You will explore key developments contributing to global and regional change as well as the dynamics of politics and economics. You can also learn through experience by living and studying in one of UNSW’s 200+ partner universities in over 38 countries.

Career opportunities
Develop the skills you need for a career in today’s global market including working in international business, government agencies (including aid agencies), investment banks and other financial institutions, United Nations agencies, journalism and media, tourism and trade, humanitarian aid and human rights organisations, and international development agencies.

Majors
• International Studies
• Language Study

Your choice of language stream:
• Chinese
• Japanese
• Korean
• Greek
• Indonesian

International studies core
Core courses will provide a grounding in world events, specialist regional knowledge and career-enhancing electives.

Overseas Study Program
The Overseas Study Program is a unique way for students to experience new cultures, build new skills and networks, and form lasting friendships.

Minors
Your choice of minor:
• Asian Studies
• Chinese Studies
• Development Studies
• Environmental Humanities
• European Studies
• French Studies
• German Studies
• International Business
• Japanese Studies
• Korean Studies
• Politics and International Relations
• Sociology and Anthropology
• Spanish and Latin American Studies

Combine this degree with:
• Bachelor of Laws
• Bachelor of Media (Communication and Journalism)
• Bachelor of Media (Public Relations and Advertising)
• Bachelor of Media (Screen and Sound Production)

Double degree duration 5 to 5 years

Media
Bachelor of Media (Communication and Journalism) (3454)
Duration 3 years
Entry February and September
Estimated first year tuition AS$35,160
Units of credit (per year): 48/144
Assumed knowledge None
Faculty Arts & Social Sciences
We are ranked 49th in the world for Communication and Media Studies QS World University Rankings by Subject, 2019

Begin your media career by developing your skills in writing, production, media analysis and creative thinking. Learn to quickly adapt to a global media environment and bring your ideas and creativity to the table.

Career opportunities
Graduates are highly successful in gaining employment and can pursue a variety of careers, or further education in film, television and media.

Bachelor of Media (Public Relations and Advertising) (3438)
Duration 3 years
Entry February and September
Estimated first year tuition AS$35,160
Units of credit (per year): 48/144

Bachelor of Music (Bachelor of Music) (3438)
Duration 4 years
Entry February
Estimated first year tuition AS$37,440
Units of credit (per year): 48/192
Selection criteria Auditions/Interviews required
Assumed knowledge Grade 7 AMEB Performance (or equivalent) and Music or Grade 8 AMEB Music Theory (or equivalent), or Music Major

Music
Specialise in studio music teaching and preparation for further music education studies.

Music Pedagogy
Specialise in studio music teaching and preparation for further music education studies.

Auditions are required for this degree, see: music.unsw.edu.au

Combine this degree with:
• Bachelor of Arts, Bachelor of Commerce, Bachelor of Education (Secondary), Bachelor of Engineering ( Honour), Bachelor of Laws, Bachelor of Media (Communications and Journalism), Bachelor of Media (Public Relations and Advertising), Bachelor of Media (Screen and Sound Production), Bachelor of Science, Bachelor of Advanced Science (Honours)

Double degree duration 5 to 6.7 years

Politics, Philosophy and Economics
Bachelor of Politics, Philosophy and Economics (3478)
Duration 3 years
Entry February
Estimated first year tuition AS$38,640
Units of credit (per year): 48/144
Assumed knowledge None
Faculty Arts & Social Sciences

This brand new degree is designed for global leaders who want to make a difference. Instilling critical thinking and research skills, studying politics, philosophy, economics and ethics will provide you with a combination of powerful intellectual tools.

Majors
• Development Studies
• Economics (Business)
• Environmental Humanities
• Human Resource Management (Business)

Combine this degree with:
• Bachelor of Science, Bachelor of Advanced Science (Honours), Bachelor of Laws, Bachelor of Social Work (Honours)

Double degree duration 4.7 – 5.7 years

Social Research and Policy
Bachelor of Social Research and Policy (3420)
Duration 3 years
Entry February and September
Estimated first year tuition AS$35,160
Units of credit (per year): 48/144

Through internships, mentoring programs, international experiences, research and industry-led projects you will shape your own path to a global career.

Career outcomes

- Animation professionals
- Architects
- Construction project managers
- Corporate interior architects
- Digital multimedia designers
- Environmental planners
- Exhibition designers
- Game designers
- Graphic designers
- Product branding and marketing
- Product designers
- Property consultants
- Quantity surveyors
- Smart manufacturing specialists
- Strategic planners
- Urban data analysts
- Urban planners
Architecture

Bachelor of Architectural Studies (3261)
Duration: 4 years
Entry February and September
Estimated first year tuition: $32,680
Estimated first year credit: 48/144
Assumed knowledge: None
Faculty: Built Environment

This degree prepares you for a professional career in architecture and other design-based industries. You will learn to design buildings and their settings to meet individual and community needs, taking sustainability, culture and economy into account. Together with the Master of Architecture, this is your launchpad into contemporary design practice.

Bachelor of Architectural Studies (3264) (UNSW – Tongi)
Duration: 4 years
Entry February and September
Estimated first year tuition: $32,680
Estimated first year credit: 48/144
Assumed knowledge: None
Faculty: Built Environment

This degree prepares you for work in both China and Australia. Upon completion of an accredited masters, you will be ready to pursue careers as a Consulting Architect in a private practice, specialist architect, Building Scientists, Architect in multidisciplinary design practice, Architect in government or in a large commercial practice architectural firm.

City Planning

Bachelor of City Planning (Honours) (3362)
Duration: 4 years (includes practice year)
Entry February
Estimated first year tuition: $32,840
Estimated first year credit: 48/144
Assumed knowledge: None
Faculty: Built Environment

Learn to shape sustainable, equitable, healthy and inspiring built environments with the Bachelor of City Planning (Honours). From theoretical work around contemporary planning issues to work integrated learning with many city, state and international partners, this program provides you with the necessary foundations for a career as a city planner.

Construction Management and Property

Bachelor of Construction Management and Property (3332)
Duration: 3 years
Entry February and September
Estimated first year tuition: $32,840
Estimated first year credit: 48/144
Assumed knowledge: None
Faculty: Built Environment

This degree will give you wide skills and knowledge across the management of property development, construction and design work, construction site operation and project management as well as quantity surveying.

Design

Bachelor of Industrial Design (3387)
Duration: 3 years
Entry February and September
Estimated first year tuition: $32,840
Estimated first year credit: 48/144
Assumed knowledge: None
Faculty: Built Environment

This degree will give you the skills and knowledge in design in tandem with user experience.

Bachelor of Computational Design (3268)
Duration: 3 years (includes practice year)
Entry February
Estimated first year tuition: $32,840
Estimated first year credit: 48/144
Assumed knowledge: None
Faculty: Built Environment

The Bachelor of Computational Design gives you the foundation of digital technologies and their use in the built environment. You’ll learn how to design responsive, interactive spaces and develop skills in computer design.

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.
At UNSW Business School we are committed to creating the next generation of business thinkers, leaders and entrepreneurs who will set the agenda on the global business stage. Our aim is to provide every graduate with the skills, networks, knowledge and know-how to stand out in the crowd and excel in today’s business world.

We are a high-impact, academically rigorous business school that enhances practice through innovative research. Our engagement, research and programs in the Asia-Pacific provide limitless opportunities across the world’s fastest growing economic market.

So, join us at UNSW Business School – Where Great Minds Do Business.
Bachelor of Actuarial Studies (3586)
Duration 3 years
Entry February and September
Estimated first year tuition A$4,140
Units of credit (per year/totals) 48/144
Assumed knowledge Mathematics
Faculty Business School
Actuaries play a vital role in strategic planning and financial management in the financial services, insurance and superannuation industries. This degree challenges the mathematically-minded to find patterns and trends where others see only a mass of data, providing you with a solid foundation to enter the actuarial profession.

Career opportunities
Bachelor of Actuarial Studies graduates may find work within sectors such as insurance and superannuation as an Actuarial Analyst, Asset Management Trainee, Business Consultant, Credit Analyst, Data Analyst, Forecasting Analyst, Investment Banker, Insurance Analyst, Risk Assessment Officer, Statistical Research Analyst, Supervision Advisor and Wealth Management Analyst.

Majors
• Actuarial Studies
• Applied Risk Management and Analytics
• Quantitative Data Science

Double degree duration 4 to 5 years

Bachelor of Economics (3543)
Duration 3 years
Entry February and September
Estimated first year tuition A$4,410
Units of credit (per year/totals) 48/144
Assumed knowledge Mathematics
Faculty Business School

We are ranked 1st in the world for Economics and Econometrics. QS World University Rankings by Subject, 2019

This degree provides you with a renowned professional qualification as well as analytical and statistical skills that can be applied anywhere in business or finance. You will gain economic literacy as well as an in-depth understanding of issues in the local and world economies. You will also have the opportunity to complete a second specialisation from either the Business School or other approved faculties.

Combine this degree with:
Bachelor of Actuarial Studies, Bachelor of Advanced Science (Honours), Bachelor of Arts, Bachelor of Aviation (Management), Bachelor of Design, Bachelor of Economics, Bachelor of Education (Secondary), Bachelor of Engineering (Honours), Bachelor of Engineering (Materials Science & Engineering) (Honours), Bachelor of Fine Arts, Bachelor of Information Systems, Bachelor of Laws, Bachelor of Media (Public Relations and Advertising), Bachelor of Music, Bachelor of Science, Bachelor of Science (Business Science) (Advanced Mathematics) (Honours), Bachelor of Science (Computational Science)

Double degree duration 4 to 5 years

Bachelor of Information Systems (3079)
Duration 3 years
Entry February and September
Estimated first year tuition A$4,410
Units of credit (per year/totals) 48/144
Assumed knowledge Mathematics
Faculty Business School

Every organisational goal, strategy and function is driven by data and technology. The Bachelor of Information Systems provides you with specialist skills, knowledge and experience in information technology, giving you the foundation to develop and implement IT solutions in the context of a business.

Career opportunities
Graduates of the Bachelor of Information Systems may pursue a career as a Business Analyst, Business Intelligence Systems Developer, e-Commerce Specialist, IS Development Specialist, IS/IT Architect, IS/ IT Consultant, IT Infrastructure Developer, Network developer, Network and Systems Analyst, Management Consultant or Technical Manager.

Majors
Information Systems

Professional accreditation
This degree is accredited by the Australian Computer Society (ACS) for provisional membership at the Professional Level. Students are also eligible for SAS accreditation after studying specific elective courses within the Bachelor of Information Systems.

Combine this degree with:
Bachelor of Commerce
Double degree duration 4 to 5 years

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.
INVENT THE FUTURE

Through world-class education and research, UNSW Engineering brings passion and creativity to meet global challenges. We combine the world's best facilities and research with an exciting and connected education experience to open doors for our graduates. We are innovation in action.

UNSW ENGINEERING

FIVE STAR RATING

Highest ranked university in Australia with a five star plus rating for research, employability, teaching, facilities, internationalisation, innovation and inclusiveness. QS Stars University Ratings 2019.

TOP 50 IN THE WORLD

In the 2019 QS World rankings for subjects, these UNSW Engineering subjects rank in the top 50: Minerals and Mining, 6th in the world; Civil Engineering, 12th in the world, and 1st in Australia; Chemical Engineering, 42nd in the world; Electrical Engineering, 38th in the world.

QUALITY STUDENT EXPERIENCE

$1 billion investment in new facilities, including state-of-the-art laboratories, virtual reality cinemas and modern teaching spaces to enhance your learning experiences.

Career outcomes

Aerospace engineers
Biomedical engineers
Chemical engineers
Civil engineers
Computer scientists
Computer engineers
Electrical engineers
Energy systems engineers
Environmental engineers
Geotechnical engineers
Manufacturing engineers
Materials engineers
Mechanical designers
Mechanical engineers
Mechatronic engineers
Mining engineers
Nuclear engineers
Petroleum engineers
Project managers
Structural engineers
Telecommunications engineers
Transport engineers
Water engineers
Wastewater and waste engineers
Aerospace Engineering
Immerse yourself in the science and practice of air and space flight with this exciting degree. You’ll cover design, development, testing and production of aerospace vehicles, maintenance and operation of aircraft, and aerospace research and development projects as well as professional practice, management and research for your field in the reality in the first year for students who haven’t yet decided their engineering specialisation.

Chemical Engineering
Chemical engineers are responsible for projects that enhance the overall quality of life. In this degree you’ll learn how to design, construct, manage, operate and maintain the infrastructure that supports modern society.

Civil Engineering
Civil engineers are responsible for projects that enhance the overall quality of life. In this degree you’ll learn how to design, construct, manage, operate and maintain the infrastructure that supports modern society.

Computer Science
Bachelor of Science (Computer Science) (3778)
Duration 3 years
Entry February and September
Estimated first year tuition $A46,149
Units of credit (per year)/total
60/184
Assumed knowledge Mathematics
Faculty Engineering
In this degree you will study, design, construct and use of computer systems. You’ll gain expertise in the basic principles behind computing tools, operating systems, compilers, translators and computer hardware, and learn about the design and development of hardware and software tools for developing computer applications.

Electrical Engineering
Bachelor of Engineering (Honours) (3077)
Duration 4 years
Entry February and September
Estimated first year tuition $A46,230
Units of credit (per year)/total
60/192
Assumed knowledge Mathematics and Physics (or specified).
Faculty Engineering
Combining mathematics, natural sciences and computing, this degree is the foundation for a variety of pathways into different engineering disciplines. You will learn how to apply yourself in engineering design and enquiry projects as well as professional practice, management and research for your field. In the final year for students who haven’t yet decided their engineering specialisation.

Bioinformatics Engineering
Assumed knowledge Mathematics, Physics and Chemistry.
Master the foundational disciplines of bioinformatics, a field at the confluence of computing and life sciences. In this degree you’ll learn how to develop technologies, tools and expertise for the design, analysis and presentation of data from life sciences.

Chemical Product Engineering
This degree focuses on the design, development, manufacture and management of complex hardware and software systems. With a focus on product design and development, Chemical Product Engineering is the new frontier for chemical engineers. You’ll graduate from this degree with everything you need to create products across a wide range of industries.

Electrical Engineering
Bachelor of Engineering (Electrical) (Honours) (3076)
Duration 3 years
Units of credit (per year)/total
60/184
Assumed knowledge Mathematics, Physics and Chemistry
With a focus on product design and development, Electrical Engineering is the new frontier for electrical engineers. You’ll graduate from this degree with everything you need to create products across a wide range of industries.

Mechanical and Manufacturing Engineering
Bridge the gap between new designs and their execution with Mechanical and Manufacturing Engineering. You’ll learn how to design and manage the production and maintenance of equipment used in many industries – nearly anything that people drive, play with or use.

Mechatronic Engineering
This degree teaches you the full spectrum of smart machine design. You’ll graduate with skills in the development of autonomous systems like self-driving cars and robots, and a thorough knowledge of industrial automation. You’ll develop expertise throughout the evolving field of smart machines and systems.

Software Engineering
Assumed knowledge Mathematics
Become an expert in the processes, methods and tools for the design and development of high-quality, reliable software systems, from code-writing to delivery. This degree involves the application of software specification, design, implementation and testing, including workshops for team-based projects that will give you hands-on experience.

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au
Mining Engineering
This degree gives you a comprehensive understanding of how complex mining systems work together to service the global need for minerals. You will acquire a solid foundation of engineering principles and the essential elements of mining, including geomechanics, ventilation, mine planning and minerals processing.

Career opportunities
Graduates enjoy fruitful careers in areas such as drilling, project management, sustainability, quality and tunneling, community relations and management consulting in mining companies, investment firms, finance, banking and government organisations.

Study areas
• Mining Engineering
• Geotechnical Engineering
• Mine Design and Planning
• Mining Management and Sustainability
• Mining Systems
• Mining Technologies
• Rock Breakage

Photovoltaics and Solar Energy
In this degree you’ll immerse yourself in the indoor and outdoor use of solar cells, which capture and convert sunlight into electricity. Courses in technology development, manufacturing, quality control, reliability, policy, system design and more will prepare you for a high-level work in an industry that is vital for humanity’s future.

Career opportunities
Graduates work in fields such as manufacturing, quality control and reliability, computer-aided design of devices and systems, policy formation, programs for developing countries, solar cells and system design in organisations such as integration companies and research organisations.

Study areas
• Cell Interconnection and Encapsulation
• Manufacturing
• Photovoltaics
• Policy Development
• Quality Control
• Reliability and Life-Cycle Analysis
• Renewable Energy Technologies
• Solar Cell Applications
• Solar Energy
• Technology Development

Surveying
Surveying: a perfect combination of indoor and outdoor work. From supporting construction and infrastructure engineering to mapping and monitoring the landscape. In this degree you’ll learn how to use GPS, laser scanners, mapping drones and surveying robots to create high-definition 3D models of both the built and natural environments.

Career opportunities
Surveying graduates work in a variety of fields including urban and rural development, oil and gas exploration, mining and engineering construction, climate change monitoring, land management and planning, cadastral surveying and cadastral, hydrographic surveying as well as aerial imaging and cartography.

Study areas
• Engineering and Mining Surveying
• Cadastral Surveying and Land Law
• Modern Geodesy
• Navigation and Earth Observation
• Precise GPS/GNSS Positioning
• Satellite and Airborne Imaging
• Surveying Applications and Design
• Business Management
• Sustainable Land Development and Management
• Water and Soil Engineering

Petroleum Engineering
Become an expert at solving problems and designing technologies that work kilometre underground. In this degree you’ll learn to apply practical science to the challenges and problems associated with oil and gas exploration, drilling and production. You’ll also study courses that engage you in the socio-political context of the industry.

Career opportunities
Graduates may pursue careers in the oil and gas industry, oil service companies, reservoir development, computer-aided modelling, heavy engineering organisations, and banking and finance.

Study areas
• Computer Modelling and Simulation of Oil and Gas Resources
• Drilling Engineering
• Formation Evaluation
• Integrated Field Development
• Natural Gas Engineering
• Petroleum Geology and Geostatistics
• Petroleum Economics
• Reservoir Engineering

Renewable Energy
Explore the best ways to make use of renewable energy technologies in this cutting-edge degree. From solar thermal systems and photovoltaics to winds and biomass, you’ll draw resources from all around UNSW to prepare you for research and professional work in this crucial, ever-growing industry.

Career opportunities
Graduates can work in a wide range of fields and companies in designing, installing and operating renewable energy generating systems such as wind, solar, biomass or hydro systems, as well as construction of energy efficient technology or buildings, policy, programs for developing countries and research organisations.

Study areas
• Biomass
• Energy Efficiency and Appliances
• Geothermal Systems
• Hydro Turbine
• Photovoltaics
• Renewable Energy
• Solar Architecture
• Solar Thermal Systems
• Total and Wave Energy
• Wind Power

Telecommunications
In this degree you’ll learn all aspects of theory and application for a broad range of telecommunications systems such as telephone and data networks, radio and TV, satellites and deep space applications. You’ll learn how to design, develop and maintain the transmission of information via different methods across the world.

Career opportunities
Graduates have a portfolio with telecommunications service providers, major equipment and device manufacturers, large private industrial groups as well as small to medium service and technology providers or startups.

Study areas
• Data Communications Systems
• Data Encoding
• Compression and Encryption
• Satellite and Optical Fibre Networks
• Voice Communication Systems

Bachelor of Engineering (Honours)/Master of Engineering (Electrical Engineering) (3736)
Duration 5 years
Entry February and September
Estimated first year tuition A$46,080
Units of credit (per year/semester) 48/240
Assumed knowledge Mathematics, Physics
Faculty Engineering
In this five-year integrated program in Electrical Engineering you will extend your knowledge whilst working on cutting edge projects. You can also take a broadening discipline (minor) in an area such as mechanics, computing, commerce, photovoltaics, music, satellite systems, mathematics, psychology or nuclear engineering. With around 35 undergraduate and postgraduate elective to choose from – the widest choice in Australia – you can tailor the program to suit your interests.

Career opportunities
Graduates can work in a huge variety of fields such as electronics, quantum computing, networking, power distribution, and robotics and control. Potential employers include energy service industries, large private industrial companies such as transport manufacturers, aerospace companies, mining companies, infrastructure service companies, electronics, networking and computing companies and small, innovative private firms specialising in the application of new technologies, services or products.

Study areas
• Energy Systems

Disciplines
• Bioinformatics Engineering
• Chemical Engineering
• Computer Engineering
• Electrical Engineering
• Mechanical Engineering
• Mechatronic Engineering
• Software Engineering
• Telecommunications

This degree is accredited by Engineers Australia.

Bachelor of Engineering (Honours)/Master of Biomedical Engineering (3768)
Duration 5 years
Entry February and September
Estimated first year tuition A$46,080
Units of credit (per year/semester) 48/240
Assumed knowledge Mathematics, Physics
Faculty Engineering
In this five-year integrated program of Biomedical Engineering you will learn principles as they apply to the development of technologies and solutions in healthcare-related fields such as implantable bionics and robotic surgery.

Career opportunities
Graduates pursue careers in pharmaceutical companies, hospitals, scientific research institutions in fields such as medical device manufacturing and biotechnology.

Study areas
• Civil Engineering
• Architecture

This degree is accredited by Engineers Australia.

Bachelor of Engineering (Honours) (Civil Engineering with Architecture) (3635)
Duration 4 years
Entry February and September
Estimated first year tuition A$45,390
Units of credit (per year/semester) 48/192
Assumed knowledge Mathematics, Physics
Faculty Engineering
In this degree you will learn all aspects of construction, climate change monitoring, land and gas exploration, mining and engineering construction, climate change monitoring, land management and planning, cadastral surveying and cadastral, hydrographic surveying as well as aerial imaging and cartography.

Career opportunities
Graduates are employed by specialist structural engineering consultants, construction and contracting companies, federal, state, and local government organisations, airport and harbour authorities, project developers, financial organisations and management consultancies.

Study areas
• Civil Engineering
• Architecture

This degree is accredited by Engineers Australia.

Food Science and Technology
Bachelor of Food Science (Honours) (3061)
Duration 4 years
Entry February and September
Estimated first year tuition A$45,140
Units of credit (per year/semester) 48/192
Assumed knowledge Mathematics and Chemistry
Faculty Engineering
This degree will provide you with a solid background in mathematics, natural science and applied science to equip you for a career in a variety of food-related professions. You will work on food product design, professional food practice, food systems management and more, in addition to conducting research for a thesis.

Career opportunities
Graduates of Food Science pursue careers in food technology, product development, quality assurance, product testing, production and laboratory management, as directors or safety inspectors.

Study areas
• Food Science and Technology
• Food Science and Nutrition

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.
UNSW Law is a top-ranking law school and a global leader in innovative and progressive legal education and research.

Our interactive small-class teaching integrates the latest forms of technology. Our emphasis in experiential learning transforms what you’ve learned in the classroom into real-life practice.

We are proud to offer more clinics and internships than any other Australian law school. On top of this, every undergraduate student spends time putting their classroom learning into practice at our on-site community legal centre, Kingsford Legal Centre (KLC).

Together with our dedicated in-house careers service, we’ll help you reach your potential and build the knowledge and skills you need for a successful career not only in the law but across a range of industries and professions.

Career outcomes

- Civil litigators
- Corporate lawyers
- Criminal lawyers
- Cybersecurity lawyers
- Employment lawyers
- Environmental lawyers
- Foreign affairs specialists
- Human rights lawyers
- Intellectual property lawyers
- Media and technology lawyers
- Policy analysts
- Real estate lawyers
- Tax attorneys
- Refugee and displacement advocates

UNSW LAW

TOP 15 IN THE WORLD

We’re ranked 14th best law school in the world and third in Australia.

QS World University Rankings 2019

MORE CLINICS AND INTERNSHIPS

We prioritise experiential learning with more clinics and internships than any other Australian law school.

EXTENSIVE GLOBAL STUDENT OPPORTUNITIES

Close to 50 per cent of our graduating students have had an international experience, either through exchange or undertaking one of our overseas electives.

**Law**

Assumed knowledge *Home for Law*. Please refer to single degree listing.

**Faculty Law**

At UNSW, undergraduate students study law as part of a double degree. This means you’ll study a Bachelor of Laws (LLB) alongside another non-law degree and graduate with two degrees. Our double degree programs provide you with a broader education and increase your understanding of the wider social implications of law. Our student-focused, interactive teaching approach emphasizes experiential learning, and will equip you with analytical and practical skills for a wide range of career opportunities.

We are ranked 14th in the world for Law in the QS World University Rankings by Subject, 2019.

We prepare our students for successful careers not only in the law but across a wide range of industries and professions including the arts, business, community service, diplomacy, education, engineering, financial services, media, science, urban planning, government and non-government organisations.

Our graduates are highly sought after by major law firms, private and public-sector institutions in key areas of legal practice including banking and finance law, commercial law, criminal law, intellectual property law, international law, litigation, media law and public and administrative law.

Professional recognition

As a graduate of a top 15 global law school, the UNSW LLB is your key to seeking admission to the legal profession. The UNSW LLB is accredited by the Legal Profession Admission Board (LPAB) and satisfies the academic component for admission to practice in the Supreme Court of NSW. Certificates to practice as a solicitor or barrister are granted by the NSW Law Society and NSW Bar Association respectively.

To practice law in other countries you must satisfy the academic and accreditation criteria in the particular jurisdiction. Always refer to the relevant authority or admitting body in your home country, or the country where you intend to practise regarding the recognition of the UNSW law degree for registration purposes.

Note: Summer semester offers to law students in their second-last year of study are generally only available to citizens and permanent residents of Australia.

* From 2020 some programs will have Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.
UNSW Medicine is a pioneer of medical research and innovation, committed to turning discoveries into cures. Our leading educators, researchers, and clinicians are developing cures, therapies, and treatment strategies and turning high-achieving students into caring health professionals with globally recognised qualifications.
Application process for UNSW Medicine—Bachelor of Medical Studies/Doctor of Medicine (3805)

Details | Closing Date | Australian or New Zealand HSC or International Baccalaureate | All other students

(1) Applicants should apply earlier if possible, as places may fill prior to the closing date.<br>(2) ISAT tests are held from March until November. ISAT test result must be available before 30 November at the latest; however, earlier application is strongly recommended.

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.

Bachelor of Exercise Physiology (3871)

Exercise Physiologists play a vital role in the prevention and management of chronic disease and injury. This degree provides you with a comprehensive education in health and exercise – from foundational courses in chemistry and molecular biology, to anatomy, physiology and pathology, then advanced clinical exercise physiology specialisations tailored to your preferred career.

**Career opportunities**
Exercise Physiologists work in private practice, hospitals, medical clinics, or research in the area of exercise for the prevention and management of chronic disease such as musculoskeletal and neuromuscular disorders, and cardiopulmonary and metabolic conditions.

**Majors**
Exercise Physiology

**Professional recognition**
The UNSW Bachelor of Exercise Physiology is accredited with Exercise and Sports Science Australia (ESSA) as the national governing body for the Exercise Physiology profession.

**Majors**
International Public Health

Want to address global health issues and join a workforce that operates across borders? The Bachelor of International Public Health is a flexible, online program, with foundational courses in health sciences and public health, advanced areas in international public health practice and an internship opportunity. You’ll emerge with a digital portfolio and a pathway into a public health career.

**Career opportunities**
Roles in public health, epidemiology, health protection, health promotion, surveillance and prevention. Graduates may also pursue a research career in public health or seek higher studies, such as a graduate medical program. Potential employers include Government agencies (e.g. health departments), Non-Government organisations (NGOs), multinationals and development agencies (e.g. UN, World Bank, CDC, WHO, ARHC, MSF).

**Majors**
International Public Health

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.
LEARN
EXPLORE
DISCOVER

UNSW Science is where the brightest minds converge to learn, explore and discover.

Our welcoming and vibrant community prepares you for real-world challenges and future leadership opportunities.

We are well connected to the changing world of business and, together with our high-profile industry partners, we will inspire you to achieve your goals and enjoy a fulfilling career.

UNSW SCIENCE

TOP 50 IN THE WORLD

Your fellow students will be bright and inquisitive high achievers attracted by the high ranking of our scientific research schools. Our school rankings include 21st for Psychology, 33rd for Earth & Marine Sciences and 35th for Materials Science in the QS World University Rankings by Subject 2019.

WORLD-CLASS FACILITIES

At UNSW Science you can access world-class laboratories, clinics and simulators that will equip you with the tools to explore new frontiers and make profound discoveries to benefit society.

RESEARCH AND TEACHING EXCELLENCE

We offer excellence and innovation in teaching and our staff, who are award-winning research leaders in their respective fields, will help you achieve your goals. Our eminent academics include Dean of Science Professor Emma Johnston; Nobel Prize winner for Chemistry Sir Fraser Stoddart; quantum physicist and 2018 Australian of the Year Professor Michelle Simmons; and materials science innovator Professor Veena Sahajwalla.

Career outcomes

Actuaries
Analytical chemists
Anthropologists
Astronomers
Aviation consultants
Biochemists
Biomedical engineers
Biomedical technicians

Aviation
Bachelor of Aviation (Flying) (3980)

Duration 3 years
Entry February and September
Estimated first year tuition $46,110*
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Faculty Science

Dreaming of becoming a pilot? You’ll learn the science behind aviation as well as gain your flying licence. In addition to theoretical studies, you will gain up to 200 hours of flight training and approximately 30 hours of simulator training. You will also take aviation management courses to prepare you for industry roles.

Career opportunities
Pilots for regional or major commercial airlines, training centres, charter flights; or as aerial surveyors.

Important information
You will need to pay for the flight training costs portion of this degree. In 2019, the anticipated standard cost of flight training to obtain the minimum of a Commercial Pilot License (CPL), Instrument Rating - Multi Engine Aircraft, and ATP (Frozen) is approximately $36,400. Additional flying costs will be incurred depending on a student’s choice of third year flying practical and if more than the 200 flight hours are required to achieve proficiency in any aspect of the flight training.

Bachelor of Aviation (Management) (3981)

Duration 3 years
Entry February and September
Estimated first year tuition $46,110*
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Faculty Science

This degree is focused on aviation management, rather than pilot training, and is designed for people with little or no background in aviation. You will do a range of courses in management areas such as operations management, aviation economics, law and regulations, airline marketing and safety.

Career opportunities
Management in airlines, freight companies, regulatory authorities, defence forces or airports. Specific examples include Airline Manager, Airport Planner, Flight Crew Scheduler, Aviation Consultant, Flight Analyst, Flight Safety Investigator, Aviation Revenue Manager and Airport or Flight Planner.

Combine this degree with:
Bachelor of Commerce
Double degree duration 4 years

Environmental Management
Bachelor of Environmental Management (3965)

Duration 3 years
Entry February and September
Estimated first year tuition $46,110*
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics, Chemistry

Faculty Science

Environmental scientists help shape policy and regulations to create sustainable solutions. This degree will teach you the theory and practical skills you need to influence decisions by providing guidance on how to create a balance between economic, social and environmental concerns. Hands-on learning experience allows students to tackle real-world problems.

Career opportunities
Graduates pursue careers as Environmental Consultants, Scientists, Managers, Policy Developers or Researchers within industry or with local, state or federal government. Employers may include National Parks and Wildlife Service or the Environmental Protection Authority.

Bachelor of Biotechnology (Honours) (3063)

Duration 4 years
Entry February and September
Estimated first year tuition $44,860*
Units of credit (per year/total) 48/192
Assumed knowledge Mathematics, Chemistry

Faculty Science

Biotechnologists work at the forefront of pharmaceuticals, food, industrial chemicals, crop and livestock farming, environmental clean-up and forensics. In this four-year degree, which includes an Honours year, you’ll learn the fundamentals of science before diving deeper into the multidisciplinary world of biotechnology, with courses including molecular biology, microbiology, chemistry and genetics.

Career opportunities
Become a scientist or researcher with medical, biological or pharmaceutical research organisations. Graduates are working as research and development managers, clinical trial associates, in government regulation and policy, industry regulatory affairs or intellectual property management. There are also career options in marketing, sales, biotech investment and finance, and business development.

Related degrees:
Bachelor of Science and Bachelor of Advanced Science (Honours)

Materials Science
Bachelor of Materials Science and Engineering (Honours) (3131)

Duration 4 years
Entry February and September
Estimated first year tuition $46,110*
Units of credit (per year/total) 48/192
Assumed knowledge Mathematics, Physics

Faculty Science

To create high-performance materials such as metals, ceramics, polymers and composites, you need a solid background in Materials Science. This degree will put you at the forefront of innovation in developing materials that are lighter, greener and stronger. Electives include ceramic engineering, materials engineering, physical metallurgy and process metallurgy.

Career opportunities
Grads will be equipped to work in areas such as fundamental scientific research, manufacturing and materials processing, quality, safety, the environmental impact of materials and commercialisation of materials technologies. Locally and around the world, graduates have gone on to work in emerging fields of nanotechnology, biomedical materials, electronic materials and major established industries.

Environmental Management brings together the biological, environmental and medical sciences. This degree will appeal to those curious about life, from the way things work at the molecular level to the study of entire ecosystems. It is a pathway to postgraduate study, especially in the health and medical fields.

Career opportunities
Life sciences have valuable applications in health, agriculture, environmental management, medicine, pharmaceutical and food science industries. Recent graduates work in business, industry, government and universities.

Bachelor of Science and Bachelor of Advanced Science (Honours)

Related degrees:
Bachelor of Arts, Bachelor of Engineering (Honours) in Environmental Engineering, Bachelor of Engineering (Honours) in Photovoltaics and Solar Energy.

From 2020 some programs will have a Term 2 (June) intake. For more information, visit degrees.unsw.edu.au.
Medical Science
Bachelor of Medical Science (3991)

Duration 3 years
Entry February
Estimated first year tuition A$46,080
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics, Chemistry, Faculty Science

Career opportunities
Medical Science graduates work in fields such as medical research, paraclinical professions, health policy, medical laboratory science, pathology and forensic science, patents and intellectual property, market research and product development, and in pharmaceutical and biotechnology industries.

Bachelor of Vision Science
Bachelor of Vision Science (3181)

Duration 3 years
Entry February
Estimated first year tuition A$46,080
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics, Chemistry, Physics and English
Faculty Science

Career opportunities
Vision Science is the study of the sensory processes that underlie vision and the development and use of vision-related technologies. This degree aims to develop scientists who understand how we see and interact with our world. Graduates will have a deep understanding of a broad range of areas including sensation and perception, psychophysics, optics, anatomy and functionning of the eye, ocular visusal disorders, introductory pharmacology, visual aids and dispensing, the consulting room interface, and research design, methods and experimentation.

Bachelor of Vision Science / Master of Clinical Optometry
Bachelor of Vision Science / Master of Clinical Optometry (3182)

Duration 5 years
Entry February
Estimated first year tuition A$46,080
Units of credit (per year/total) 48/242
Assumed knowledge Mathematics, Chemistry, Physics and English
Faculty Science

Career opportunities
Graduates can pursue a career as an Optometrist, and may specialise in clinical practice, paediatric optometry, contact lens practice, public health, sports vision, low vision rehabilitation or behavioural optometry. Graduates may also seek careers in ophthalmic industries and in vision research.

Psychology
Bachelor of Psychology (Honours) (3612)

Duration 4 years
Entry February
Estimated first year tuition A$46,080
Units of credit (per year/total) 48/192
Assumed knowledge Mathematics, Faculty Science

Career opportunities
Psychologists work in a range of organisations within both the public and private sector, such as counselling, developmental care, public, community and occupational health, management consultancy, human resources, recruitment, training and development, industrial relations, banking, journalism, marketing, business and retail management, statistical and data analysis, and many other areas.

Bachelor of Psychological Science
Bachelor of Psychological Science (3435)

Duration 3 years
Entry February and September
Estimated first year tuition A$46,080
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics, Faculty Science

Career opportunities
Psychology is the study of mind and behaviour. Topics of study include learning, memory, cognition, perception, neuroscience, and developmental, forensic, social and abnormal psychology. This degree allows you to study for an accredited three-year degree in Psychology at the same time as undertaking a complementary major in a number of related areas, including marketing, human resources management, management, criminology, linguistics, philosophy, vision science and neuroscience.

Optometry and Vision Science
Bachelor of Optometry and Vision Science (4518)

The purpose of Honours in Psychology is to enable students who have performed well at undergraduate level to deepen their knowledge of approaches, perspectives, and traditions in psychology and undertake a significant research project. Honours is a means of connecting undergraduate study with supervised independent research by consolidating and extending work completed in the undergraduate program and providing an academic foundation for students continuing on to a masters by coursework, a masters by research, or a PhD.

Admissions requirements
To be eligible for this program, students must have completed a bachelor degree or graduate diploma from an approved institution. See the UNSW Online Handbook for more information and details.

Career opportunities
See Bachelor of Psychology (Honours) or Bachelor of Psychological Science. Those interested in furthering their career as a psychologist, can apply to do a Master of Psychology (Clinical or Forensic).
Bachelor of Science (Mathematics, Honours) (3966)

 問題解答

 Duration 4 years
 Entry February and September
 Estimated first year tuition A$45,080
 Units of credit (per year) 48/192
 Assumed knowledge Mathematics
 Faculty Science

 High-achieving students who want to specialise in mathematics as a basis for an increasing range of quantitative careers - in areas such as finance and environmental modelling - will be attracted to the Advanced Mathematics degree. This four-year degree combines advanced coursework with an honours-level research project.

 Major
 • Applied Mathematics
 • Pure Mathematics
 • Advanced Statistics

 Double degree duration 5 to 6 years

 Bachelor of Science (Honours) (4100)

 問題解答

 Duration 1 year
 Entry February and September
 Estimated first year tuition A$45,410
 Units of credit (per year) 48/144
 Assumed knowledge Mathematics
 Faculty Science

 Honours connects undergraduate study with supervised independent research by consulting and extending work completed in the undergraduate program and providing an academic foundation for students continuing on to a masters by research or a PhD.

 Major
 • Anatomy
 • Bioinformatics
 • Biology
 • Biotechnology
 • Chemistry
 • Earth Sciences
 • Ecology
 • Food Science
 • Genetics
 • Geophysics
 • Geology
 • Marine and Coastal Science
 • Materials Science
 • Mathematics
 • Microbiology
 • Molecular and Cell Biology
 • Neuroscience
 • Pathology
 • Pharmacology
 • Physics
 • Psychology
 • Statistics
 • Vision Science

 Double degree duration 4 to 5 years

 Bachelor of Advanced Science (Honours) (3962)

 問題解答

 Duration 4 years
 Entry February and September
 Estimated first year tuition A$45,080
 Units of credit (per year) 48/192
 Assumed knowledge Mathematics and Chemistry plus one or more of Biology, Earth and Environmental Science or Physics (depending on chosen area of study).
 Faculty Science

 Innovative thinkers with exceptional scientific knowledge and skills will embrace this degree, which includes advanced-level courses and an Honours year. The Bachelor of Advanced Science (Honours) program has 25 majors to choose from including Advanced Physical Oceanography, Climate Systems Science, Microbiology, Vision Science and Advanced Physics.

 Major
 • Advanced Physical Oceanography
 • Advanced Physics
 • Anatomy
 • Bioinformatics
 • Biotechnology
 • Chemistry
 • Climate Dynamics
 • Climate Systems Science
 • Earth Science
 • Environmental Science
 • Medical Physics
 • Microbiology
 • Molecular and Cell Biology
 • Nanotechnology
 • Neuroscience
 • Psychology
 • Pharmacology
 • Physics
 • Physiology
 • Statistics
 • Vision Science

 Double degree duration 5 to 6 years

 Bachelor of Science (International) (3987)

 問題解答

 Duration 4 years

 Estimated first year tuition A$45,080
 Units of credit (per year) 48/192
 Assumed knowledge Mathematics and Chemistry plus one or more of Biology, Earth and Environmental Science or Physics (depending on chosen area of study).
 Faculty Science

 Scientists increasingly need to be experts in their field and qualified to interact effectively with colleagues around the world. This degree focuses on a Science major as well as cross-cultural skills, knowledge and understanding. It includes subsidised study overseas at a UNSW partner university.

 Major
 • Advanced French Studies (Extended)
 • Advanced Chinese Studies (Extended)
 • Advanced Japanese Studies (Extended)
 • Advanced Korean Studies (Extended)
 • Chinese Studies (Extended)
 • French Studies (Extended)
 • German Studies (Extended)
 • Indonesian Studies (Extended)
 • Japanese Studies (Extended)
 • Korean Studies (Extended)
 • Spanish and Latin American Studies (Extended)

 Double degree duration 5 to 6 years

 Career opportunities

 - Employment across a wide range of settings including public sector research in universities and government institutes like CSIRO, as well as private sector research in pharmaceuticals and biotechnology companies, public policy, health and environmental related non-profits, marketed research and product development, management, technical and environmental consulting, data analytics or medical sales and science communication.

 Faculty Science

 A variety of research, communication, leadership and management roles in science and technology-based public and private sectors. Graduates are skilled in the commercial applications of scientific research giving them a competitive edge in the graduate labour market. Examples include brand manager, product development manager, medical sales and technical specialist and marketing and communications specialist. Recent graduates have also started a variety of successful science-based commercial businesses.

 Major
 • Anatomy
 • Bioinformatics
 • Biotechnology

## Undergraduate direct entry table

This table is a guide only and actual entry requirements may be higher or lower than those indicated. In all cases, admission will be determined upon the receipt of an application. The university reserves the right to vary entry requirements to those published without further notice. For further explanations of this table refer to the key on the next page.
**Direct entry table key and notes**

**Entry guide key**

- English Language Proficiency (ELP)
- Mathematics Proficiency (MP)
- Other Proficiency (OP)
- Minimum average required
- Faculty of Science
- Faculty of Engineering
- Faculty of Arts & Social Sciences
- Faculty of Law
- Faculty of Medicine
- Full expression of application criteria

**Program information**

- Applicants must meet the UNSW English language proficiency requirements. Details are available on the UNSW English Language Proficiency website.
- Calculations are based on the best two, three, or four A2 Level subjects (excluding any vocational subjects) where A=4, B=3, C=2, S=1, F=0.
- Students must also meet the additional requirements for the Faculty of Science and the Faculty of Engineering.
- Students must meet the additional requirements for the Faculty of Arts & Social Sciences and the Faculty of Law.
- Students must meet the additional requirements for the Faculty of Medicine.
- Students must meet the additional requirements for the Faculty of Business.
- Students must meet the additional requirements for the Faculty of Design.
- Students must meet the additional requirements for the Faculty of Health.

**Importance of high school qualifications**

- Students must provide a full statement of predicted grades from 9th to 12th grade, including English language proficiency. This statement must be issued by the student's secondary school.
- Students must also provide official transcripts and full secondary school records. Where the academic year is split into semesters, the overall average of the best five subjects must be calculated.
- Students must also meet additional faculty requirements.
How to apply

Step 1
Choose your program
Choose your program at international.unsw.edu.au or from our International Student Guide and make a note of the program code.

Step 2
Check your entry requirements
You need to satisfy your chosen programs entry requirements (see page 85–83 for the requirements specific to your program). You also need to satisfy UNSW’s English language requirements (see page 24 and visit unsw.edu.au/elp).

Step 3
Submit your application online
Submit your application at UNSW Apply Online apply.unsw.edu.au. Click ‘Register now’ and fill out your details. Upload your supporting documents and pay your application fee.

Step 4
Track your application
Once you have submitted your application you will be able to easily track its progress via your Apply Online account. You will also be able to upload any additional documents we need.

Step 5
We will send you a letter of offer
We will notify you of the outcome of your application via email. If your application is successful, you will receive a full offer, or a conditional offer if more steps are required. If you are receiving assistance with your application, your nominated agent will also receive a copy of the email.

Step 6
Accept your offer
If you receive a full offer, you will also receive an email with a link to your personalised offer page. Your page will guide you through the process of accepting or deferring your offer. Once you have accepted and paid your deposit, you will receive an electronic confirmation of enrolment (eCoE).

Step 7
Enrol online
Once enrolment for your degree is available, you can enrol in your degree and courses online at myUNSW my.unsw.edu.au.

Need help?
If you have any questions regarding your application, go to enquiry.unsw.edu.au.

Other ways to apply
You can also apply to UNSW at a conference or event where we are present, or through a UNSW agent located in your country. Find out more at international.unsw.edu.au.

Application deadline
We encourage you to submit your completed application as early as possible to ensure it will be processed in time for your preferred term. Some high-demand programs, such as Engineering and faculties with limited places such as Medicine, may have an earlier application deadline or may have an earlier commencement date.

For more information go to apply.unsw.edu.au.

Scholarships

A wide range of scholarships are available for international students.

UNSW undergraduate coursework scholarships
UNSW scholarships for international students provide financial support to cover some of the costs associated with studying at Australia’s global university. Scholarships recognise students who demonstrate academic achievement or other outstanding qualities such as leadership skills or contributions to the wider community.

To be considered for a scholarship, you must submit a separate application in addition to your admission application for UNSW.

Other scholarship providers
There are many scholarships offered by organisations other than UNSW including the Australian government, industry partners, and organisations in your home country.

Australian government scholarships
Australia Awards are international scholarships and fellowships funded by the Australian government offering the next generation of global leaders an opportunity to undertake study, research, and professional development. For more information, go to www.australiaawards.gov.au.

Other scholarship providers
There are many scholarships offered by organisations other than UNSW including the Australian government, industry partners, and organisations in your home country.

Step 1
Search
Visit scholarships.unsw.edu.au. Make sure you select ‘International’ in the Residency search box to see the list of scholarships available to you.

Step 2
Register
Before applying for your chosen scholarship, first register an account by following the instructions on the page. You need to have lodged an application for admission at UNSW to be able to register and apply for a scholarship.

Step 3
Apply
To apply, log in using your registered login and password. Double-check the requirements as some scholarships may have specific questions or require supporting documentation.

Step 4
Submit
Submit your application by the due date. Don’t forget to check the website regularly for application deadlines and updates.

</table>

* Indirect fee only.

Fees are charged based on the number of units of credit.

For example, if you start in Term 3 (September 2020), the fees for the first term will be calculated at 2020 rates. Your second term will be calculated at 2021 rates. If you are required to complete a course again, you will be charged at the rate applicable to the year you re-take the course.

Estimating your tuition fees

While it isn’t possible to give a fixed annual fee for each program, it is possible to provide an estimate. For each program, you are outlined in the undergraduate degrees section, starting on page 40. You can also calculate your own expected fees on the following page. Most programs will require 48 units of credit (UOC) per year. Most courses (subjects) are 6 UOC.

General Education course fees are charged at the rate set by the relevant faculty. As an example, GENT803 – Introduction to Australian Cinema will be calculated using the Faculty of Arts & Social Sciences rate.

For more information about the UNSW fees policy, including refund of fees and overpayments, visit student.unsw.edu.au/fees-policy-international-students.

Other study-related costs

Some programs and courses have costs which are additional to the tuition fees, such as costs relating to laboratory kits, equipment, and field trips. Textbooks are not considered compulsory, but we recommend budgeting around A$1,000 per year for books.

An estimate of your total costs (tuition and other study-related costs) will be shown on your Confirmation of Enrolment Form (CoE) that will be issued on acceptance of an offer of admission to UNSW.

Living costs

Living costs vary depending on each student’s specific requirements. We estimate a single international student will need a minimum A$20,010 per year to cover general living expenses. This doesn’t include the costs of large non-essential items like electrical equipment or a car.

In addition, you will need at least A$32,000 when you arrive in Sydney to cover initial expenses such as a rental bond payment (security deposit), electricity, gas, and telephone connection fees, and basic furniture and household items.

Example of fee calculation for a Bachelor of Arts (specialising in Philosophy and Psychology)*

Total expected first year costs: A$61,940

Living costs vary depending on each student’s specific requirements. We estimate a single international student will need a minimum A$20,010 per year to cover general living expenses. This doesn’t include the costs of large non-essential items like electrical equipment or a car.

In addition, you will need at least A$32,000 when you arrive in Sydney to cover initial expenses such as a rental bond payment (security deposit), electricity, gas, and telephone connection fees, and basic furniture and household items.

LIVING COSTS

The only exception is for students from Belgium, Norway, and Sweden who are covered by CSN or Kammarkollegiet. These students will need to provide proof of official health insurance cover from their home government provider.

There are five registered providers.

The five registered providers are Medibank Private (UNSW’s preferred overseas student health cover provider), Allianz Global Assistance, BUPA Australia, NIB Health Funds Ltd and Australian Health Management. Medibank OSHC will pay benefits towards your medical and hospital treatment, medically necessary ambulance transport, and most prescription medicines. Be aware that there may be some exclusions for pre-existing conditions, and you may have to serve a waiting period to receive some services.

Some services are not covered by Medibank’s policies. These include optical, physiotherapy, dental, and certain pharmaceuticals. If you want to be covered for these expenses, you will need to take out additional insurance.

US financial aid

We are authorised by the US Department of Education to administer Federal Direct Loans for eligible US students studying at UNSW. If you are eligible for this support, the UNSW Financial Aid Office will be able to help you with your application.

For more information, visit international.unsw.edu.au/for-us-students.

International student loans

If you are from Canada, Sweden, Norway, Denmark, or the UK and have applied for a student loan or a grant from your home country, we can help you certify your enrolment at UNSW.

Please send the Certification Form to financialaid@unsw.edu.au.

For more information, visit international.unsw.edu.au/financial-aid.
3. Program Preferences – you may nominate up to three coursework program choices.

1st

2nd

3rd

5. English Language Proficiency – for further details please visit, unsw.edu.au/elp

English is my first language. YES ☐ NO ☐

OR the sole language of instruction and assessment in my degree or diploma (within the last 2 years) was English. Please note that these studies must have been for a minimum duration of one year full-time.

YES ☐ NO ☐

OR I hold a certificate of English proficiency from an approved test (e.g. IELTS or TOEFL) undertaken within the last two years.

YES ☐ NO ☐
This is NOT an application form. Please do NOT send this form to UNSW. To apply, please go to apply.unsw.edu.au
9. Please select a UNSW Diploma program (if applicable)

Diploma (select ONE)

☐ Aerospace
☐ Bioinformatics
☐ Chemical
☐ Chemical Product Engineering
☐ Civil
☐ Computer Engineering
☐ Electrical
☐ Environmental
☐ Manufacturing
☐ Mechanical
☐ Materials Science and Engineering
☐ Mechanical Engineering
☐ Petroleum
☐ Photovoltaics
☐ Renewable Energy
☐ Telecommunications

Science

☐ Anatomy
☐ Biology
☐ Chemistry
☐ Food Science
☐ Genetics
☐ Marine Science
☐ Mathematics
☐ Microbiology
☐ Molecular & Cell Biology
☐ Pathology
☐ Pharmacology
☐ Physical Oceanography
☐ Physics
☐ Physiology
☐ Statistics

10. Please select English Language Course(s) (if applicable)**

**Note: Foundation Studies and Diploma applicants who have met the English requirements do not need to complete this section. Students applying for UEEC to be packaged with the UNSW degree program must submit their UEEC conditional offer and English test result. Depending on your English test result, we will issue you with an English offer that may also include Essential Academic English courses and Essential English courses (if required).**

Academic English:

☐ University English Entry Course (EEC)
☐ Foundation English Entry Course (FEEC)
☐ Tertiary Orientation Program (TOP)
☐ Essential English (EAE)

Start date: / / 

Yes. Please refer to the Program Start Dates on the website at unswglobal.unsw.edu.au/english-language-courses

All applicants must complete questions 11-16

11. English Proficiency

Have you taken an IELTS, TOEFL or other recognised English Proficiency test?*

☐ Yes
☐ No

If you selected Yes, please attach a copy of your ELC English test results or if the case of IELTS, provide the IELTS TRF number.

*All applicants must complete this section.

12. Scholarship

Have you been granted a scholarship?  ☐ Yes  ☐ No  ☐ Scholarship Name or Sponsor Name:

13. Airport Pick Up

Do you want to be picked up by a UNSW Global approved driver when you arrive at Sydney airport? Our airport pickup fee is AUD 50.  ☐ Yes  ☐ No

14. Overseas Student Health Cover (OSHC)

UNSW Global can arrange visa-length health cover with Medibank, our preferred provider of OSHC. If you want UNSW Global to purchase OSHC on your behalf, your personal information will be disclosed to Medibank, in accordance with our Privacy Policy for the purpose of arranging your OSHC. You must maintain OSHC for the proposed length of your student visa.

☐ Yes, I want UNSW Global to purchase OSHC on my behalf
☐ No, I will make my own OSHC arrangements

YES:
☐ Single rate for myself
☐ Couple rate for myself and partner OR
☐ Family rate for myself and dependant(s)

The length of OSHC will be calculated and advised, depending on your proposed enrolment period.

If you have a current OSHC, please quote your OSHC policy number:  

15. Students with a disability/ health condition

Do you have a learning difficulty or health condition that may impact on the way you study, attend class or class assessment?  ☐ Yes  ☐ No

Telling us about a disability will not prejudice your application. The earlier you tell us, the better we are able to work with you and others to assist you to make adjustments to your teaching and assessment program. If you choose not to tell us, we may not be able to make adjustments in time and this could affect your ability to progress in your UNSW Global program and/or your preferred program at UNSW.

If you disclose a disability to us, please indicate that you consent to our use of this information only for the purposes above by ticking this box

16. Declaration

I certify that the information on the form is correct and complete in every detail, and I understand that inaccuracies or omissions may result in non-acceptance or cancellation of enrolment at any time. I have read and understood the Conditions of Enrolment and acknowledge that personal information provided is covered under the Privacy Policy.

Signature of Student (as it appears in your passport):  

Date (dd/mm/yyyy): / / 

(Underlined applications cannot be processed). Please sign your name on the signature box. A typed-in name cannot be accepted. Education Representatives cannot sign on behalf of the student. If applicable, if under 16 years of age the signature of a Parent or Legal Guardian is required.

Signature of Parent or Legal Guardian:  

Date (dd/mm/yyyy): / / 

Email of Parent or Legal Guardian: 

Correspondence:

Lodge the completed form with a UNSW Global Representative in your country, or email to admissions@unswglobal.unsw.edu.au

DISCLAIMER: UNSW programs, courses and any arrangements for programs and fees including staff allocated, as stated in the guide or any other University publication, announcement or advice of the University, are an expression of intent only and are not to be taken as a firm offer or undertaking. The University reserves the right to make alterations to any matter contained within this publication without notice. Information in this Guide is accurate as of March 2019, but may be amended without notice by the University. All costs and fees are provided in Australian Dollars (A$). Any agreement with the University does not relieve the right to take action under Australia’s consumer protection laws.

COMPLIANCE: The Education Services for Overseas Students (ESOS) Act 2000 sets out the legal framework governing delivery of education to overseas students studying in Australia on a student visa. UNSW in providing education services to overseas students complies with the ESOS Framework and the National Code of Practice for Registration Authorities and Providers of Education and Training to Overseas Students 2018 (The National Code).

A description of the ESOS framework can be found at the following link: international.unsw.edu.au/Regulatory-Information
