This table is a guide only and actual entry requirements may be higher or lower than those indicated. In all cases, admission will be determined upon receipt of an application. The university reserves the right to vary entry requirements to those published without further notice. For further explanations of this table refer to the key on the next page.
Direct entry table key and notes

**Entry guide key**

- Combined: includes both science and non-science subjects.
- Science: includes at least one additional science subject.
- Non-science: includes at least one additional non-science subject.

**Program information**

- Offers are released from 23 January for entry in Term 2 (July intake) and after 1 January for entry in Term 3 (August intake).
- E2G Advanced Level: subjects with less than 50% overlap are not considered.
- The statement of predicted grades must: (a) be available at the time of release; and (b) have a total final aggregate required for admission.
- The statement of predicted grades must be 2 points higher than the total final aggregate required for admission.
- UAC application number and UAC PIN. You will need your UAC application number and UAC PIN to program preferences and access your offer on the UAC website to check or change your program preferences and access your offer. Alternatively, UNSW-authorised agents can assist you with this process.
